ABOUT BZBGear

Founded in 2019 and headquartered in Sacramento, California, BZBGear® has quickly emerged as a global leader and one-stop manufacturer of professional AV and broadcasting solutions. Dedicated to delivering excellence, BZBGear focuses on combining innovative design, exceptional user experience, and unparalleled lifetime product support.

Each solution is meticulously crafted by a team of expert hardware and software engineers to ensure superior quality and cutting-edge functionality. Recognized for its award-winning products and industry-leading support, BZBGear has become the go-to choice for AV and broadcast applications, trusted by professionals worldwide.

WHAT BZBGear HAS TO OFFER

BZBGear delivers comprehensive professional AV and broadcasting solutions, including live streaming and video production products. Our mission extends beyond providing exceptional gear—we pride ourselves on unparalleled customer service and reliable seven-days-a-week technical support. Our team is celebrated for delivering outstanding assistance and ensuring customer satisfaction at every step.

At BZBGear, we prioritize our customers' needs and concerns, offering the highest level of professional support. By fostering relationships built on integrity and trust, we approach every interaction with honesty and fairness, always striving to place ourselves in our clients' shoes.

Our vision is to make cutting-edge AV technology accessible to everyone at a fair price. Because everyone deserves to see, hear, and experience the remarkable advancements of today's AV world

Audio

Audio Amplifiers

BZBGEAR AUDIO AMPLIFIERS

A BZBGEAR audio amplifier is a device that takes weak audio signals and boosts them to a level that can drive audio output systems, ensuring the sound is at the desired volume and quality. It enhances the overall audio experience by improving clarity and loudness.

BZBGEAR Audio Amplifiers are designed for optimal performance, with compact and efficient Class-D digital technology. These amplifiers offer flexible configurations, including stereo, dual-mono, and bridge-mono modes, making them suitable for various audio setups. Their space-saving design is ideal for installations with limited room, delivering powerful, high-quality sound.

Additionally, BZBGEAR amplifiers include integrated microphone mixers, allowing users to blend microphone input with other audio sources, which is especially useful for paging systems and other live audio applications. They support various impedance options, such as 4Ω, 8Ω, 70V, and 100V, making them versatile for a range of audio needs.

AND DURABLE

BG-AMP2X20

2-CHANNEL 40W 4/8 OHMS STEREO/MONO AUDIO AMPLIFIER

The BG-AMP2X20 is a versatile and compact bridgeable digital stereo amplifier (Class-D). Perfect for installations with limited space, it can be operated in three different configurations. In stereo configuration the amplifier outputs 2x20 watts at 4 Ohms. The selector switch also allows for dual-mono operation for distributed audio applications. In bridge-mono configuration it can double the output to 40 watts at 8 Ohms.

Inputs include 1 x stereo RCA, 1 x 3.5mm, and a microphone input with switchable 48v phantom power. Bass, Treble, volume level, and input selection are all controllable via the integrated buttons on the bottom panel, IR remote control, or RS-232.

The features and performance combined with its compact form factor make this amplifier the perfect solution for situations that don't allow a full-sized amplifier.

Features

MICROPHONE INPUT

3-level Mic input with mixer function

AMPLIFY YOUR SOUND

Outputs Stereo 20Watt@4 Ohms or bridged mono 40Watt@8 Ohms

COMPACT

Small form factor ideal where full-sized amplifiers will not fit

MULTIPLE CONTROL OPTIONS

Take control using RS232, IR, or push buttons

DURABLE

Metal enclosure designed to last for years

BASS, TREBLE, & VOLUME

Control bass, treble and volume levels conveniently using integrated push buttons

BG-AMPC40

2-CHANNEL 40W 70/100V STEREO/MONO AUDIO AMPLIFIER

The BG-AMPC40 is a 40-Watt digital stereo amplifier (Class-D) with switchable output of 70V or 100V. Inputs include 2 stereo inputs (1x3.5mm port for line in, 2xRCA for L&R), 1 TOSLINK input, and 1 balanced MIC input. The 3-pin MIC input has selectable 48V phantom power, supports balanced or unbalanced signals, and features external noise suppression.

Integrated functions include ducking, EQ control, and MIC mixer. The rotary knob allows users to choose from 16 IR ID codes for easy control of multiple amplifiers. The front panel has controls for input selection, volume level for MIC and Line inputs, and bass/treble adjustment. This amplifier can be controlled with RS232 commands in addition to the front panel buttons and IR commands.

- Fast switching speed for good performance
- 16 ID codes for controlling between different amplifiers
- Convection cooler, fan is not needed
- MIC port can support balance/unbalance signal, suppress the external noise effectively

BG-AMP150WD

150W CLASS D AMPLIFIER/DIGITAL SIGNAL PROCESSOR WITH DANTE RS-232/LAN AND WEB GUI CONTROL

The BG-AMP150WD is a versatile two-channel amplifier that harnesses the power of class D amplifier technology, offering outstanding performance and efficiency. Perfectly designed for both low impedance ($4\Omega/8\Omega$) stereo systems and constant voltage (100V and 70V) configurations, this amplifier delivers robust and reliable audio solutions for a wide range of AV installations. With a maximum power output of 2 x 75 watts in stereo mode and up to 150 watts when bridged, the BG-AMP150WD is engineered to meet the demands of modern audio environments.

The BG-AMP150WD utilizes advanced class D technology, delivering up to 2 x 75 watts in low impedance ($4\Omega/8\Omega$) stereo mode and 150 watts in bridged high impedance (70V/100V) mode. It features Dante 2-channel digital audio inputs and outputs, along with balanced and unbalanced line-level analog inputs and outputs for versatile connectivity, including 1x Dante Network audio input, 1x LINE balanced stereo 0dBu/10k Ω input, 1x Dante Network audio output, and 1x Stereo or constant voltage 70V/100V speaker output.

Features

DANTE 2-CHANNEL DIGITAL AUDIO

Supports digital audio input and output via Dante, ensuring high-quality sound transmission and interoperability with other Dante-enabled devices

FLEXIBLE ANALOG INPUTS/OUTPUTS

Includes balanced or unbalanced line-level analog inputs and outputs, providing versatile connectivity options for various audio sources and setups

BUILT-IN DSP PROCESSOR

Features a built-in Digital Signal Processor (DSP) for advanced audio processing capabilities, allowing fine-tuning of sound quality to match specific installation needs

INDEPENDENT CONTROL OPTIONS

Offers independent input gain, output EQ, and volume control, enabling precise audio adjustments for optimal performance

HIGH-QUALITY CONVERSION

Equipped with 48KHz sampling rate and 24-bit independent A/D and D/A converters, ensuring pristine audio quality

CONTROL OPTIONS

Provides flexible control via RS-232, LAN, and a Web GUI, allowing for easy integration and remote management in complex AV systems

Audio

Audio Extenders

BZBGEAR AUDIO EXTENDERS

BZBGEAR audio extenders provide an effective solution for transmitting audio over long distances when standard cables can't reach. They feature both analog-to-digital and digital-to-analog converters, ensuring compatibility with various source devices and amplifiers.

These extenders can carry a stereo analog signal up to 170 meters (557 feet) or a digital audio signal (TOSLINK or COAX) up to 290 meters (950 feet).

**EXTENSION OVER 900 FT
(274 METERS)**

**MULTIPLE AUDIO
FORMATS SUPPORTED**

**COMPACT
AND DURABLE**

BG-AUD-TCS

STEREO/TOSLINK/COAX AUDIO EXTENDER (TRANSMITTER/RECEIVER KIT) OVER CAT5E/6/7 CABLE

The BG-AUD-TCS is a compact audio extender designed to transmit audio signals up to 290 meters (950 feet) over a single category cable. It can transmit an analog stereo signal up to 170 meters (555 feet), and TOSLINK or digital coax signal up to 290 meters. The transmitter is equipped with 1-TOSLINK, 1-COAX, and 1-3.5mm stereo input. The front panel switch provides manual input selection. The power over cable function eliminates the need for a power supply at the receiver.

[Check out this item on our website](#)

Features

RUGGED DESIGN

Durable metal enclosure design for years of use

CONTROL

Select which audio source is playing via the toggle switch

LONG DISTANCE

Send a digital audio signal up to 950ft

POC

Power over Cable means you only need to power the receiver simplifying installation

AUDIO FORMATS

Supports major audio formats Dolby, DTS, and PCM

MULTIPLE INPUTS/OUTPUTS

Choose from TOSLINK, COAX, or Stereo 3.5mm/RCA for connections

Audio

Digital Signal Processors

BZBGEAR AUDIO DSP

The BZBGEAR Audio DSP solutions offer a range of tools for precise audio signal control, including modules like Expander, Equalizer, Compressor, Auto Gain Control, Limiter, High Pass Filter, Low Pass Filter, and Delay. These features allow users to fine-tune and manipulate audio to achieve optimal sound quality. Additionally, the DSP units include advanced audio matrixing for input routing and auto-mixing for microphone inputs. The system is managed through an intuitive software interface, making control and customization easy for users.

Audio DSP works by converting analog audio signals into a digital format, which are then processed using mathematical operations to enhance audio quality. This enables precise control over the sound characteristics, allowing for a tailored audio experience.

BG-A88M

**8X8 BALANCED DIGITAL AUDIO PROCESSOR/MATRIX WITH
AEC/ANS/AGC/AUTO MIXER AND 8-CHANNEL
PROGRAMMABLE GPIO SUPPORT**

This digital audio processor is designed to enhance the audio quality in a variety of settings where multiple speakers are present and clear communication is essential. It provides eight MIC/linear inputs and eight linear outputs, allowing you to connect a wide range of audio sources and destinations. Its advanced algorithms, including full-band Adaptive Echo Cancellation (AEC), Adaptive Noise Suppression (ANS), Automatic Gain Control (AGC), and Auto Mixer, work together to produce clear, clean, and resonant sound with a high signal-to-noise ratio.

This processor is easy to use, with no need for additional software. It is ready to use right out of the box, making it an excellent choice for project implementation and testing. It can be applied in a variety of settings and industries, including smart system integration in small to medium-sized conference rooms, instruction recording and distance teaching in education, court trial recording and virtual court trials in the judiciary, surgery recording and video consultations in healthcare, and command center establishment in governmental projects.

Features

ADVANCED DSP

Manipulate and enhance audio signals with essential modules like Expander, Equalizer, Compressor, and more, ensuring optimal audio quality and control

QUALITY AUDIO CONVERSION

Achieve high-quality audio output with a 48kHz sampling rate and 24-bit A/D or D/A conversion

ECHO CANCELLATION

Clear audio communication and minimized feedback issues with built-in echo cancellation

ADAPTIVE FEEDBACK

Mitigate feedback problems and improve audio performance with adaptive feedback suppression

ADAPTIVE NOISE REDUCTION

Enhance audio clarity and signal-to-noise ratio with dynamic noise reduction technology

AUTO MIXER FUNCTION

Seamless audio mixing in scenarios with multiple microphones and adjustable priority settings

BG-A1616MD

16X16 BALANCED DIGITAL AUDIO PROCESSOR/MATRIX WITH 12-CHANNEL MIC LINE IN/OUT AND 4-CHANNEL DANTE IN/OUT PLUS AEC/ANS/FILTER/LIMITER/EQ/DELAY SUPPORT

The BG-A1616MD Digital Audio Processor is a versatile solution designed for video conferences, distance learning, and telemedicine applications. With its advanced features and intelligent algorithms, this processor delivers exceptional audio quality and seamless control. It is equipped with 12-ch MIC/linear inputs, 12-ch linear outputs, and four DANTE ports for low-latency audio processing. This powerful processor is ready to use immediately, ensuring hassle-free installation and project implementation.

The BG-A1616MD Digital Audio Processor incorporates a range of advanced audio processing features. It includes full-band Adaptive Echo Cancellation (AEC), which effectively eliminates echoes for clear and resonant sound. The Adaptive Noise Suppression (ANS) technology reduces background noise, ensuring clean audio signals. The Automatic Gain Control (AGC) feature adjusts the microphone input levels automatically, maintaining a consistent volume. Additionally, the Auto Mixer function allows you to prioritize microphone inputs when multiple microphones are used simultaneously.

2024 INAVATION AWARDS
TECHNOLOGY FINALIST - AUDIO
(NON-LOUDSPEAKER) - ISE 2024

Features

DANTE PORTS

Four DANTE ports for low-latency audio processing

AUTO MIXER

For prioritizing microphone inputs

QUALITY CONTROL

Adaptive feedback suppression, full-band acoustic echo cancellation, and dynamic adaptive noise reduction technologies

DSP MODULES

Fine-tuning audio signals with DSP modules (Expander, Equalizer, Compressor, Auto Gain Control, Limiter, High Pass Filter, Low Pass Filter, and Delay)

WINDOWS COMPATIBILITY

Seamless compatibility with Windows 7 and Windows 10 platforms

ADVANCED CONTROL

Advanced control capabilities through RS-232 serial commands control

Audio

Conference Speakers/Microphones

BZBGEAR CONFERENCE SPEAKERS AND MICROPHONES

BZBGEAR offers a range of high-performance conference room microphones and speakerphones designed to elevate communication during meetings and presentations. Featuring advanced 360° audio pickup, these devices capture sound from all corners of the room with impressive range, allowing participants to speak naturally without needing to raise their voices.

The all-in-one speakerphones integrate both microphone and loudspeaker, enabling seamless communication for multiple participants without the need for headsets. This makes them ideal for conference rooms, where group discussions can take place effortlessly.

BZBGEAR's conferencing solutions also incorporate cutting-edge echo cancellation technology, ensuring crystal-clear audio by eliminating feedback and background noise. With these features, BZBGEAR enhances communication quality for both virtual and in-person meetings, creating an optimal audio experience for all participants.

BG-MIC-U1

UNIVERSAL AND COMPACT USB CONFERENCE MICROPHONE

The BG-MIC-U1 is a USB conferencing microphone. It features a dual color LED indicator, a push ON/OFF switch and an electret cardioid condenser capsule. The internal shock mount minimizes mechanical noise for crystal-clear sound reproduction. Integrated mounting holes allow for wall or ceiling placement for a clean installation. Simply connect with a USB type B to USB type A cable for plug and play operation.

Features

BOUNDARY MICROPHONE

The boundary microphone is designed for conference, house of worship, and theater applications

MINIMUM NOISE

Internal shock mount minimizes mechanical noise

LED indicator

The BG-MIC-U1 features dual color LED indicator, membrane ON / OFF switch and back electric cardioid condenser capsule

BG-OMNITALK-PRO

USB/BLEETOOTH WIRELESS DESKTOP CONFERENCE SPEAKERPHONE WITH 360 AUDIO PICKUP UP TO 20FT

The BG-OMNITALK-PRO is a versatile USB Wireless Bluetooth Conference Speakerphone designed for professional communication. It offers flexible connectivity options, including USB, Bluetooth, AUX, and dongle connections. Equipped with four omnidirectional microphones, it captures voices within a 6-meter radius, ensuring clear communication. Featuring adaptive high-definition amplification technology, the speakerphone enhances audio quality. Its compact design includes touchscreen controls and an LCD screen, making it portable and user-friendly. The built-in 8000mAh lithium battery provides up to 14 hours of music playback or 24 hours of talk time, supporting fast charging.

The device excels in delivering crystal-clear conversations, incorporating HD Voice, wideband audio, noise reduction, and full-duplex technology. It's compatible with various communication applications and platforms, supporting multiple operating systems. Ideal for mid-sized meetings, the speakerphone accommodates up to 15 participants in spaces of 15-30 square meters. With its smart design and advanced features, it's a reliable tool for professional audio conferencing.

Features

BLUETOOTH & USB TYPE-C PLUG N PLAY

6 meters pick-up range, support USB-C connection and Bluetooth connection

4 OMNIDIRECTIONAL MICROPHONES

Hear and be heard with a 360-degree microphone that picks up sounds from any angle

INNOVATIVE UX DESIGN

Boasts sleek touch buttons, while its LCD screen presents essential information such as battery power, Bluetooth connectivity, speaker volume, and microphone sensitivity

8000MAH (BUILT-IN LITHIUM BATTERY)

Music time (up to 14hours); Battery life(call) up to 24 hours; Fastest Charge time: 3 hours, Regularly 6 hours; (Support PD2.0/3.0 charging with maximum power up to 18W)

HD VOICE/WIDEBAND AUDIO

HD Voice offers you life-like, vibrant conversations. You will not have to struggle to hear from others

HIGH COMPATIBILITY

It can work with most video conference applications and UC platforms, simply plug and play. To enjoy video conference immediately

AV over IP

AVoIP

BZBGEAR AUDIO/VIDEO OVER IP

BZBGEAR AV over IP (Audio-Visual over Internet Protocol) solutions enable the seamless transmission of high-quality audio and video data over networks like LAN, WAN, or the Internet. These solutions are highly scalable, allowing for the interconnection of an virtually unlimited number of devices. The core components of an AV over IP system include a control box, transmitters, receivers, and a network switch. The control box acts as the central hub, providing remote control and monitoring. Transmitters capture video signals from the source and transmit them across the network, while receivers ensure that these signals reach the appropriate output devices such as TVs, monitors, or projectors. The network switch efficiently routes signals between devices, ensuring smooth communication across the system.

One of the primary advantages of AV over IP is its scalability, making it ideal for setups ranging from small offices to large enterprise networks. Additionally, AV over IP solutions offer remote management, enabling users to control and monitor the system from any location with a network connection. The system is also future-proof, easily adapting to advancements in both network and AV technology. AV over IP solutions are commonly used in a wide range of applications, including home entertainment, commercial environments, video walls, and matrix systems. These solutions support high-quality video resolutions up to 4K at 60Hz and deliver intuitive, scalable performance. Our AV over IP systems also include various connectivity options such as HDMI, analog audio, USB, and more, ensuring seamless integration with existing network infrastructures.

FUTURE-PROOF

BG-IPGEAR-XTREME-W

4K UHD HDMI 2.1 OVER IP MULTICAST WALL PLATE ENCODER/DECODER WITH SEAMLESS MATRIX SWITCHING/MULTIVIEW/KVM/USB 3.2 & POE SUPPORT OVER 1 GIGABIT NETWORK

The BG-IPGEAR-XTREME-W HDMI 2.1 Over IP Multicast Wall Plate System is a high-performance AV transmission solution designed to extend Ultra-HD 4K@120Hz 4:4:4 video and high-fidelity audio over long distances via standard Cat.5e cable. Supporting distances of up to 100 meters (330 feet) over copper, this system ensures uncompressed, high-quality transmission from HDMI sources such as Apple TV, PlayStation, Xbox, PCs, and other HDMI-enabled devices to remote displays.

With support for USB-C (Alt Mode DP 1.4), HDMI, and DisplayPort input, the BG-IPGEAR-XTREME-W is ideal for professional AV installations in corporate environments, digital signage, healthcare, gaming, and education sectors. The unit features bi-directional IR pass-through, USB 3.1 for UVC devices, and seamless video switching, making it a robust choice for interactive and multi-display setups.

By utilizing a 1 Gigabit Ethernet network switch with IGMP Snooping support, this system enables flexible video distribution in point-to-point, point-to-multipoint, and multicast configurations. Additionally, the built-in 802.1Q VLAN functionality allows for remote control of multiple devices, ensuring an efficient and scalable deployment.

Features

HDMI 2.1 & HDCP 2.3

Delivers 4K@120Hz 4:4:4 with up to 40Gbps (FRL 5), HDR, VRR, ALLM, and eARC/ARC for premium video and audio

EXTENDED TRANSMISSION

Transmits uncompressed video and 7.1-channel audio up to 100m (330ft) over Cat.5e with zero degradation and auto equalization

FLEXIBLE CONNECTIVITY

Features HDMI, USB-C (DP 1.4 Alt Mode), 3.5mm audio, RJ-45 Ethernet, and USB 3.1 Gen1/Gen2 for peripherals and UVC webcams

ADVANCED VIDEO PROCESSING

Supports ultra-low latency switching, PiP, PbP, PoP (Chroma Key), and custom scaling for optimized display performance

NETWORK & CONTROL INTEGRATION

Enables IGMP Snooping, 802.1Q VLAN, bi-directional IR, RS-232, CEC bypass, EDID management, and software updates

RELIABLE BUILD

Compact metal enclosure with wall-mount support and ESD protection

BG-IPGEAR-XTREME-F

4K/8K UHD HDMI 2.1 FIBER EXTENDER KIT WITH BI-DIRECTIONAL IR/RS-232/GIGABIT ETHERNET/USB & KVM

The BG-IPGEAR-XTREME-F is a cutting-edge HDMI 2.1 over fiber extender designed for mission-critical AV transmission in broadcast, medical imaging, eSports, control rooms, and high-end home theater applications. With support for uncompressed 4K60 4:4:4 and visually lossless 4K144 4:4:4, it also enables 8K@60Hz 4:4:4 DSC transmission, ensuring next-generation video performance with zero-frame latency over distances up to 10km (6.25 miles) via single-mode fiber optic cable.

Beyond video, this extender provides full-featured connectivity with bi-directional IR, full-duplex RS-232, USB 3.1 KVM, eARC/ARC, and 1Gb Ethernet pass-through. With its interference-free fiber optic transmission, the BG-IPGEAR-XTREME-F is engineered to deliver the ultimate in high-resolution video, data, and control extension over long distances.

Features

8K & 4K HDR SUPPORT

Transmits up to 8K@60Hz 4:4:4 DSC, 4K@144Hz 4:4:4, and 4K@60Hz 4:4:4 uncompressed for pristine image quality

HDMI 2.1 & HDCP 2.3 COMPLIANCE

Ensures compatibility with gaming consoles, media servers, professional video switchers, and AV processors

48GBPS VIDEO BANDWIDTH (FRL 6)

Provides high-speed, zero-latency transmission for next-generation AV applications

DISPLAYPORT 1.4 (USB-C ALT MODE) INPUT SUPPORT

Connects directly to USB-C-enabled laptops, tablets, and workstations

UNCOMPRESSED 7.1CH HDMI AUDIO

Supports Dolby TrueHD, DTS-HD Master Audio, and LPCM formats

EARC/ARC PASS-THROUGH

Enables lossless Dolby Atmos and DTS:X audio transmission from displays to AV receivers

BG-IPGEAR-XTREME

4K UHD HDMI 2.1 AV OVER IP MULTICAST TRANSCIVER WITH SEAMLESS MATRIX SWITCHING/MULTIVIEW/KVM/USB & POE SUPPORT OVER 1 GIGABIT NETWORK

The BG-IPGEAR-XTREME delivers next-generation HDMI 2.1 over IP performance, enabling uncompressed 4K@120Hz 4:4:4 video, multi-channel audio, and advanced KVM functionality over standard Cat.5e/6 cabling up to 100 meters. Designed for professional AV environments, this versatile transceiver can operate as either a transmitter or receiver, supporting point-to-point, point-to-multipoint, and multicast configurations for maximum deployment flexibility. With seamless matrix switching, ultra-low latency transmission, and scalable network architecture, the system is ideal for digital signage, esports, corporate AV, broadcast, education, healthcare, and command center applications.

Features

HDMI 2.1 & HDCP 2.3 COMPLIANCE

Ensures compatibility with the latest high-definition content protection standards

4K@120HZ 4:4:4 VIDEO TRANSMISSION

Provides ultra-high-definition video with crystal-clear clarity and exceptional color depth

VRR (VARIABLE REFRESH RATE) & ALLM (AUTO LOW LATENCY MODE)

Enhances gaming and interactive applications with smooth frame rates and reduced latency

LONG-DISTANCE TRANSMISSION

Extends HDMI signals up to 100m (330ft) over Cat.5e cabling

ADVANCED AUDIO SUPPORT

Delivers uncompressed 7.1-channel digital HDMI audio, including DTS-HD Master Audio and Dolby TrueHD

INTELLIGENT NETWORK MANAGEMENT

Works with managed 1GbE switches supporting IGMP Snooping & 802.1Q VLAN for multicast optimization

BG-IPGEAR-XTREME-PRO

4K/8K UHD HDMI 2.1 AV OVER IP MULTICAST TRANSCEIVER WITH SEAMLESS MATRIX SWITCHING/VIDEO WALL/MULTIVIEW/KVM/USB & POE SUPPORT OVER 1 GIGABIT NETWORK

The BG-IPGEAR-XTREME-PRO is a high-performance HDMI 2.1 over IP multicast transceiver system designed for seamless AV transmission over 1GbE networks. This system supports 8K@60Hz 4:2:2 DSC and 4K@144Hz 4:4:4, providing crystal-clear video and ultra-low latency, making it ideal for applications in gaming, broadcasting, healthcare, digital signage, and professional AV environments. With HDMI 2.1, USB-C (Alt Mode DP 1.4), and eARC/ARC compatibility, the BG-IPGEAR-XTREME-PRO ensures broad device support and superior compatibility.

Additionally, its KVM functionality enhances control over multiple devices, while the system's compact form factor, rugged metal enclosure, and efficient power management make installation easy and reliable in demanding environments.

BG-IPGEAR-ULTRA-C

SMART CONTROLLER FOR IPGEAR-ULTRA HDMI OVER IP SERIES

The BG-IPGEAR-ULTRA-C is a high-performance seamless 4K H.264/H.265 AVoIP controller designed for professional environments. It features dual 1G network ports for isolating control and video networks, improving security and preventing congestion. The unit offers a user-friendly web GUI with drag-and-drop functionality, and real-time video preview, and supports multiple control methods, including TCP, RS-232, IR, and GPIO. It also supports AES256 video encryption, HTTP, and SSH for secure remote management.

With dual RS-232 ports, IR signal integration, and four GPIO ports for automation systems, the BG-IPGEAR-ULTRA-C provides flexible control. Power over Ethernet (PoE) simplifies installation, and the unit's design ensures reliability with lightning protection and ESD safeguards, making it ideal for 24/7 operation in demanding environments.

[Check out this item on our website](#)

Features

DUAL 1G NETWORK PORTS

Isolates control and video networks for enhanced security and traffic management.

COMPREHENSIVE CONTROL OPTIONS

Supports Web GUI, TCP, RS-232, IR, and GPIO with an intuitive drag-and-drop interface for easy AV system management.

ENHANCED SECURITY

Features HTTP/SSH compatibility and AES256 video encryption to protect content.

VIDEO AND AUDIO MANAGEMENT

Manages video, audio, RS-232, and KVM, with support for IP camera integration.

GPIO PORTS

4-channel GPIO with 5V and 12V compatibility for integration with external devices.

POWER OVER ETHERNET (POE)

Reduces installation complexity by providing power through compatible PoE switches.

BG-IPGEAR-ULTRA

4K UHD HDMI 2.0 OVER IP MULTICAST TRANSCIVER WITH SEAMLESS MATRIX SWITCHING/VIDEO WALL/MULTIVIEW/ KVM/USB 2.0/POE SUPPORT

Introducing the BG-IPGEAR-ULTRA 4K60Hz advanced AVoIP kit. Key features of the BG-IPGEAR-ULTRA series include HDMI 2.0b and HDCP 2.2 compliance, support for video resolutions up to 4K60Hz (4:4:4), and a video bandwidth of 18Gbps. Audio formats support LPCM 2.0CH at 48kHz. The integrated design of the encoder and decoder supports both fiber and copper connections, with a window roaming function that allows a decoder unit to process up to 16 signals for arbitrary windowing, roaming, overlaying, and splicing. The system supports KVM seat management, universal H.264/265 protocol, high-definition background images, multi-screen splicing, scrolling subtitles, character overlay, point-to-point signal extension, signal distribution, multicast mode, matrix, and video wall functions over a 1G Network Switch.

It also features integrated central control over RS-232, APP control on portable devices, user rights management, flexible control via KVM, APP, and Control Server, and standard POE support (802.3af Class 3, PD mode). The encoder supports HDMI local loop-out and audio embedding and de-embedding functions, along with comprehensive visual interaction modes, signal source, large screen status, scene preview, and environmental visualization control.

BG-VOP-MT

4K UHD HDMI OVER IP MULTICAST TRANSCIVER WITH VIDEO WALL/KVM/USB/POE SUPPORT

The BG-VOP-MT Transceiver performs both encoding and decoding for BZBGEAR's IPGEAR-4K system. The device offers outstanding 4K UHD HDMI video transmission over IP and has support for PoE. This device is a keystone in providing digital signage, video walls, and video distribution in commercial settings.

With the ability to function as a transmitter or receiver at the flip of the switch, this device is one of the easiest video over IP solutions to implement on the market. The BG-VOP-CB controller can auto-discover each BG-VOP-MT on the network, making for a painless setup process.

Unlike most other video over IP solutions from competing manufacturers, the BG-VOP-MT is TAA compliant, making this device an attractive choice for government use. It also provides a scalable solution so that you can easily add additional BG-VOP-MT units to your network at any time. This enables operators to create fully customized HDMI matrix switching over IP.

BG-IPGEAR-PRO-C

SMART CONTROLLER FOR IPGEAR-PRO HDMI OVER IP SERIES

The BG-IPGEAR-PRO-C Smart Controller provides system management for BZBGEAR's IPGEAR-PRO transmitters and receivers. In addition to managing devices and serving as the gateway for the web interface, this TAA-Compliant unit allows users to monitor the IP-based BG-IPGEAR-PRO-T transmitters in real time. This device allows the system to be highly expandable and can manage up to 1024 devices at the same time.

With a web-based GUI users can drag and drop any source to any connected display, build video walls, and create custom on-screen displays (OSD).

The BG-IPGEAR-PRO-C is capable of continuous system monitoring and self-recovery. This includes real-time event notifications and alerts. A free iOS app is available for mobile control as well. With a simple and easy to use interface, this app allows easy control of basic system functions such as mapping and preset recall.

This unit uses a 5V DC power adapter, an HDMI connector, and an Ethernet port for system connectivity. The simple connections allow stress-free installation and servicing.

BG-IPGEAR-PRO-R

4K UHD HDMI 2.0 OVER IP MULTICAST RECEIVER WITH VIDEO WALL/KVM/USB/POE SUPPORT

The BG-IPGEAR-PRO-R is a high-performance Receiver/Decoder that is an essential component in the BZBGEAR IPGEAR-PRO AV over IP system. It provides decoding of 4K 60Hz UHD HDMI video transmission over IP networks, and also has support for Power over Ethernet (PoE). This system is ideal for digital signage, video walls, and video distribution in commercial installations.

The BG-IPGEAR-PRO-R offers various features and functionalities, such as audio embedding and de-embedding, HDCP 2.2 compliance, PoE, bi-directional IR extension, and RS-232 extension. It also has a USB 2.0 hub that enables KVM extension and remote management, allowing users to expand the range at which they can use peripherals to interact with host devices. Point-to-point, point-to-many, and multicasting broadcasting formats are supported, meaning one HDMI source can be broadcasted to as many displays as necessary. Moreover, it also has a feature for creating custom video walls, that can be controlled via a user-friendly web interface or a free iOS control app - BG-AVOIP-CONTROL.

AV over IP

Streaming Encoders / Decoders

BZBGear Streaming Encoders / Decoders

BZBGear video encoders and decoders are essential tools for converting and transmitting video signals in various professional and enthusiast applications. Encoders transform video signals from sources like HDMI or SDI into formats suitable for streaming over IP or USB, enabling high-quality live broadcasts to platforms such as YouTube and Twitch or integration into video conferencing systems. Decoders, on the other hand, receive live streams over IP, decode the audio and video signals, and output them as HDMI or SDI for display on monitors or large screens, making them ideal for remote viewing and monitoring.

Devices that combine both functionalities, known as encoder/decoders, offer a flexible and cost-effective solution by enabling seamless transitions between streaming and local viewing. These multifunctional units are widely used in live event production, digital signage, video distribution, and hybrid workflows, ensuring efficient content management and delivery.

BG-STREAM-DE / BG-STREAM-NDE

1 CHANNEL SDI/HDMI ENCODER/DECODER/RECORDER
WITH AUDIO/USB 3.0 FOR STORAGE

The BG-STREAM-DE is a versatile and powerful video and audio streaming decoding/encoding solution designed for both professional and personal use. This all-in-one device supports 1x HDMI 2.0 or 1x SDI input and loop-through, with an additional HDMI 2.0 output for seamless video integration. It also features a 3.5mm analog audio input for audio embedding and a 3.5mm analog audio output for audio de-embedding, making it a comprehensive tool for high-quality media production and streaming.

Supporting a maximum resolution of 1920x1080p at 60/50fps, the BG-STREAM-DE includes advanced video features such as H.265/H.264/AVC encoding and a range of output resolutions to meet different display and recording needs. Audio capabilities include AAC input streams for high-quality sound. With an RJ45 port supporting 10/100/1000Mbps Ethernet and multiple streaming protocols like NDI, Dante AV-H, RTSP, RTMP, and HLS, this device offers extensive streaming flexibility. Users can record in MP4, TS, and MOV formats and utilize various streaming formats, including RTSP, NDI-HX, HLS, RTMP, SRT, TS, and Dante AV.

BG-STREAM-D / BG-STREAM-ND

IP/UVC TO HDMI 2.0 POE DECODER SUPPORTS H.264/H.265/AVC

The BG-STREAM-D IP/UVC to HDMI2.0 is a versatile and compact video decoder that bridges the gap between various video input sources and HDMI output. Featuring a single RJ45 input, USB 3.0 Type A (UVC) input, and HDMI 2.0 output, this device is ideal for high-definition video processing and streaming. It is powered through a secure locking DC jack, ensuring stable and reliable operation.

The BG-STREAM-D IP/UVC to HDMI2.0 is an advanced video processing unit that supports multiple video and audio formats. It provides seamless connectivity options through its RJ45 and USB 3.0 inputs, delivering output via HDMI 2.0. This device is designed to handle high-resolution video up to 4096x2160p at 60/50fps, making it suitable for professional AV setups, live streaming, and broadcasting applications.

The device supports a wide range of streaming protocols, including RTSP, RTMP, HLS, TS, SRT, NDI HX, and Dante AV-H, providing flexibility and compatibility with various streaming platforms. The integrated web UI offers an intuitive interface for system configuration, ensuring user-friendly operation and easy setup.

BG-STREAM-E / BG-STREAM-NE

HDMI TO IP/UVC POE ENCODER SUPPORTS H.264/H.265/AVC

The BG-STREAM-E HDMI to IP/UVC is a compact and efficient video converter that provides a seamless connection between HDMI inputs and IP or USB 3.0 UVC outputs. This device is ideal for high-definition video streaming and recording, offering robust features such as hardware compression, real-time recording, and support for multiple streaming protocols.

The BG-STREAM-E HDMI to IP/UVC is designed to facilitate high-quality video conversion from HDMI sources to IP streams or USB 3.0 UVC outputs. Equipped with a single HDMI input and versatile output options including 1 x RJ45 for IP streaming and 1 x USB 3.0 Type-B for UVC output, this converter ensures broad compatibility with various streaming protocols such as RTSP, RTMP, HLS, TS, SRT, NDI HX, and Dante AV-H.

Supporting resolutions up to 1920x1080p at 60/50fps, the BG-STREAM-E delivers exceptional video quality. The device features advanced video processing with H.265/H.264/AVC encoding, enabling efficient compression without compromising performance. Audio support includes AAC-LC with a configurable bit rate range from 32Kbps to 384Kbps and a sample rate of 48KHz, ensuring clear and synchronized audio.

Cables

SUPERIOR QUALITY

BZBGEAR cables are engineered with precision and undergo rigorous testing to ensure reliable performance that meets or exceeds their rated specifications.

HIGH-RESOLUTION COMPATIBILITY

BZBGEAR HDMI and SDI cables are designed to support cutting-edge resolutions, delivering exceptional video clarity. Our 12G-SDI cables handle resolutions up to 4K@60, while our HDMI 2.1 cables support resolutions up to 8K@60 and 4K@120Hz. Crafted in-house and thoroughly tested before shipping, our SDI cables provide customers with confidence in their performance and reliability.

EXTENDED TRANSMISSION RANGE

BZBGEAR Active Optical HDMI and USB cables utilize advanced fiber optic technology to achieve transmission distances far beyond conventional cabling. These cables maintain full-resolution signal integrity over distances up to 164 feet (50 meters) for USB and 328 feet (100 meters) for HDMI.

BG-CAB-H21A

8K UHD HDMI 2.1 48GBPS ACTIVE OPTICAL CABLE

Unmatched Professional Quality: The BG-CAB-H21A establishes an unparalleled benchmark for professional excellence. This 8K cable flawlessly transmits 8K@60Hz signals and supports high-refresh 4K resolutions, reaching up to 4K@120Hz. Enhanced by HDR video, seamless 48Gbps bandwidth, and compatibility with various audio formats, this cable provides users with a comprehensive toolkit that caters to the demands of any project.

Elevated Gaming and Entertainment: Introducing groundbreaking features such as automatic low latency mode, rapid media switching, frame transport, and variable refresh rate, individuals can fully engage in elevated gaming and entertainment experiences that push the boundaries of enjoyment.

Future-Proof and Advanced Security: The BG-CAB-H21A excels in transmitting top-tier 8K and 4K signals, providing a forward-looking solution for all your video distribution needs. Additionally, its HDCP 2.3 compliance enhances security through advanced media encryption, ensuring an extra layer of protection.

BG-CAB-SDI

1080P FHD 75-OHM SHIELDED SDI CABLE

BG-CAB-SDI from BZBGear is the ultimate solution to elevate your video transmission experience. Seamlessly supporting 3G-SDI cameras and equipment, BG-CAB-SDI unleashes the true potential of your video devices. With the capacity to handle resolutions up to 1080P, BG-CAB-SDI delivers your visuals in Full HD brilliance. BG-CAB-SDI grants you the ability to extend your setup up to 100 meters while maintaining impeccable quality.

Empowering 3G-SDI: Seamlessly supporting 3G-SDI cameras and equipment, BG-CAB-SDI unleashes the true potential of your video devices. Whether you're working with live broadcasts, studio setups, or recording environments, these cables ensure your content remains true to its form.

Full HD Brilliance: With the capacity to handle resolutions up to 1080P, BG-CAB-SDI delivers your visuals in Full HD brilliance. Experience vivid colors, sharp details, and lifelike images that capture every nuance of your content.

Impressive Reach: Don't let distance limit your creativity. BG-CAB-SDI grants you the ability to extend your setup up to 100 meters while maintaining impeccable quality. This flexibility is essential for setups that demand spatial freedom without compromising visual excellence.

BG-CAB-SDIS

1080P FHD 75-OHM PREMADE SHIELDED SDI WITH DC SIAMESE CABLE

BZBGear SDI Siamese cables are made using 75 ohm shielded coaxial cable with high-quality BNC connectors. The addition of a 2-conductor 18-gauge stranded copper wire allows power or serial control to be carried with the video signal on a single wire run. They are designed to reliably support 3G-SDI cameras and equipment at resolutions up to 1080P over distances up to 100m. The cables feature a woven shield to help reject electromagnetic interference and deliver pristine images free from artifacts. They are suitable for both temporary and permanent applications requiring a high-quality SDI connection.

Power Supply: DC power cables can power devices like cameras and monitors, eliminating the need for a separate power source and offering convenience for security camera setups.

Longer Cable Runs: The shielding and power supply capabilities of this cable make it suitable for longer cable runs, which is essential in scenarios where you need to transmit SDI video signals over extended distances.

Combination Cable: Combination Cable: Siamese cables combine SDI for video signals and DC power cables, simplifying cable management, reducing clutter, and making installation easier.

Reduced Interference: Shielded cables reduce electromagnetic and radiofrequency interference for professional video applications, ensuring signal integrity over long distances.

BG-CAB-12SDI

4K UHD 75-OHM SHIELDED 12G SDI CABLE (UHD)

Experience flawless 4K video transmission with the BG-CAB-12SDI by BZBGEAR. Designed to meet the demands of professional videographers and enthusiasts alike, these cables offer a seamless connection for your high-resolution content.

12G-SDI Compatibility: These cables effortlessly handle ultra-high-definition content, delivering sharp images and vibrant colors without compromise.

Interference Rejection: The cables are equipped with a woven shield that effectively rejects electromagnetic interference, providing you with a clear and consistent video feed.

Extended Reach: Cover distances up to 70 meters without sacrificing quality. The BG-CAB-12SDI gives you the flexibility to set up your equipment wherever you need, making it ideal for both studio and on-location shoots.

High-Quality Construction: The BG-CAB-12SDI is built on a foundation of precision. It employs 75-ohm shielded coaxial cable and premium BNC connectors, ensuring minimal signal loss and maintaining the integrity of your video data.

Durable Design: Built to withstand the demands of various setups, these cables are a reliable choice for both temporary and permanent installations.

BG-CAB-SDICAT

4K UHD 12G-SDI+ CAT6 COMBO CABLE

The BG-CAB-SDICAT is a professional-grade combo cable that combines RG6 Quad Shield coaxial cable and CAT6 Ethernet cable in one convenient spool. Designed for high-performance installations, it simplifies cabling for both video and data transmission, reducing clutter and saving installation time.

With RG6Q 18AWG copper-clad steel conductors for reliable satellite, CATV, and HDTV signals, paired with CAT6 23AWG solid bare copper conductors for fast network connectivity up to 550 MHz, this cable delivers exceptional performance across multiple applications. Ideal for residential, commercial, and professional AV setups, it supports data, video, audio, telephony, LAN networking, PoE, and digital broadcasting.

Built to industry standards, the cable is UL-listed, CMG-rated, RoHS-compliant, and FT4 flame-tested, ensuring safe and dependable operation. Packaged in a 500ft spool with a durable black PVC jacket, it's engineered for long-lasting use in structured wiring projects.

Dual-Purpose Combo Cable: Integrates RG6 Quad Shield coax and CAT6 UTP into a single run for simplified installation.

High-Performance CAT6: 23 AWG solid bare copper, UTP, sweep tested to 550 MHz, ideal for gigabit networks and PoE/PoE+ applications.

RG6 Quad Shield Coax: 18 AWG copper-clad steel conductor with multiple shielding layers for superior signal integrity in satellite, CATV, and HDTV.

Wide Application Support: Suitable for data, video, audio, communications circuits, LAN, CDDI, ATM, Token Ring, and IEEE 802.3af/at (PoE/PoE+).

BG-CAB-U3A

USB 3.0 AM/AF ACTIVE OPTICAL EXTENSION CABLE

Discover the transformative power of the BG-CAB-U3A, a USB 3.0 type-A male-to-type-A female active optical extension cable designed to revolutionize your data transmission capabilities.

Next-Level Extension: This cable goes beyond the confines of traditional copper cables, utilizing fiber optics to convert USB data signals into optical signals.

Sustained Performance: Whether you're transferring large files, streaming high-definition content, or managing data-intensive tasks, this cable ensures your connection remains swift and responsive.

Enhanced Compatibility: The cable unlocks the power of UASP (USB Attached SCSI Protocol) functionality, providing even faster data transfer speeds when used with compatible systems such as Windows 11, 10, and 8.

Efficient Power Management: The BG-CAB-U3A is ingeniously designed to draw power directly from your connected device, eliminating the hassle of seeking an extra power supply while still delivering the lightning-fast speeds of USB 3.0.

Exclusivity Note: Please note that the BG-CAB-U3A is specifically engineered for USB 3.0 and is not compatible with USB 2.0 or 1.1.

Available Lengths:

33ft/10m; 50ft/15m; 66ft/20m; 100ft/30m; 132ft/40m; 164ft/50m

Features

HIGH-SPEED TRANSMISSION

Achieves lightning-fast USB 3.0 speeds of up to 5Gbps

ADVANCED OPTICAL TECHNOLOGY

Utilizes an 850nm VCSEL transmitter and a PIN photo-detector receiver for reliable signal transmission

UNIVERSAL COMPATIBILITY

Compatible with all USB 3.0 devices, but not with USB 2.0 or 1.1 devices

OPERATING SYSTEM SUPPORT

Works seamlessly with major operating systems, including Windows, Mac OS, and Linux

OPTICAL SIGNAL CONVERSION

Converts USB data signals into optical signals through fiber optics

INTEGRATED OPTICAL TRANSCEIVER

Features a fully integrated circuit with both receiver and transmitter functions

PTZ Cameras

BZBGEAR PTZ CAMERAS

A BZBGEAR PTZ (Pan-Tilt-Zoom) camera is a versatile and high-performance solution designed to deliver precise control over panning, tilting, and zooming, making it ideal for a wide range of applications. The most common variant is the IP PTZ camera, which streams video over a local network and can be remotely controlled via IP or web interfaces. These cameras are widely used in environments such as live streaming, broadcasting, videoconferencing, houses of worship, and security monitoring. With features like multiple connection options (Ethernet, USB, SDI/HDMI), scalable image formats, and flexible control systems, PTZ cameras are designed to provide seamless performance across diverse settings.

Available in various models, including 4K and Full HD, BZBGEAR PTZ cameras offer advanced functionalities such as auto-tracking, NDI technology, and Dante AV-H technology, optimizing them for live events and professional productions. Many models are equipped with essential features like Power over Ethernet (PoE), optical zoom, preset camera angles, and video compression technologies (H.264/H.265) for efficient and high-quality streaming.

Additionally, numerous PTZ models feature tally lights to indicate active cameras and offer automatic subject tracking, making them perfect for environments with limited staff. The combination of flexibility, user-friendly controls, and professional-grade features makes BZBGEAR PTZ cameras indispensable tools in a variety of industries.

BG-ADAMO-JR

1080P FHD AUTO TRACKING HDMI/3G-SDI/USB 2.0/USB 3.0
LIVE STREAMING PTZ CAMERA WITH TALLY LIGHTS

The BG-ADAMO-JR is a brand-new Full HD PTZ camera with 3 types of lenses available: 12X optical zoom with 70.3 FOV, 20X optical zoom with 60.04 FOV, and 30X optical zoom with 58.1 FOV. It features smooth PTZ functions, advanced image processing features and flexible connection options.

Advanced Visual Performance: With the high quality 1/2.8-inch SONY CMOS image sensor, the resolution of this camera can get up to 1080@60fps. Additionally, the low noise 1/2.8-inch SONY CMOS guarantees high SNR and the advanced 3D noise reduction technology further reduces the noise while ensuring pristine image clarity. The advanced ISP processing technology and algorithms also allow the camera to deliver true-to-life image quality for the most natural and accurate viewing experiences.

The BG-ADAMO-JR supports HDMI, SDI, USB 2.0, USB 3.0 and LAN connections. It also supports IP streaming, offering flexible workflow options for users.

The BG-ADAMO-JR offers a smooth and impressively clear viewing experience. It uses advanced video and audio compression techniques to ensure the best quality content. Additionally, advanced auto focus technology allows the camera to autofocus stably, swiftly, and precisely.

BG-ADAMO-4K

4K UHD AUTO TRACKING HDMI 2.0/12G-SDI/USB 2.0/USB 3.0
LIVE STREAMING PTZ CAMERA WITH TALLY LIGHTS

The BG-ADAMO-4K is loaded with features including a full interface of video connections and immaculate 4K@60Hz resolution. The 12G-SDI connection enables long distance cable runs without compromising image quality. Compose shots ahead of time utilizing up to 255 programable presets, with 10 conveniently accessible using the IR remote. Capable of storing 1 TB of video footage with the Micro SD Card writer, start recording on the fly when other connections are inaccessible.

The lens is designed with an advanced auto-focusing algorithm that promptly snaps into focus with dependable accuracy and stability. The 3D noise reduction technology combined with the low-noise CMOS sensor ensures impeccable image clarity. Choose between the 12x optical zoom lens with an 80.4° wide-angle or the 25x optical zoom lens with a 59° wide-angle.

Packed with an array of video connections including USB 2.0, USB 3.0, LAN, HDMI, and 12G-SDI, the BG-ADAMO-4K boasts unparalleled functionality with sophistication and style. The dual stream USB facilitates concurrent main-stream and sub-stream outputs. While the HDMI, SDI, and USB 2.0 connections are capable of transmitting 4K video and audio signals simultaneously.

BG-AVENTO-4K

4K AI Enabled Dual-Lens NDI PTZ Conference Camera with Intelligent Speaker Tracking & Panoramic View

The BG-AVENTO-4K is an advanced dual-lens AI-powered 4K camera built to transform collaboration in conference rooms, classrooms, and training environments. Featuring both a powerful 4K PTZ lens and a panoramic wide-angle lens, it simultaneously delivers detailed close-up visuals and full-room coverage, ensuring every participant is clearly visible and naturally framed on screen.

Designed for intelligent interaction, the BG-AVENTO-4K integrates four linear array microphones and sophisticated AI algorithms for precise sound localization and automatic speaker tracking. Combined with plug-and-play USB connectivity, 4K@30fps video performance, and compatibility with major conferencing platforms, it delivers a professional, seamless, and highly engaging communication experience for modern hybrid environments.

The BG-AVENTO-4K utilizes a dual-lens architecture to optimize visual clarity and coverage. Its 8MP PTZ camera provides 3x optical zoom with a 110° DFOV, capturing detailed participant views, while the 2MP panoramic lens offers a fixed 120° DFOV for full-room visibility. Leveraging CMOS imaging and advanced ISP processing, the camera ensures vibrant color accuracy, low noise performance with 2D/3D DNR, and smooth HDR-supported image quality across varying lighting conditions.

Features

DUAL-LENS CAPTURE

Combines a 4K PTZ lens with a 1080p panoramic lens for simultaneous close-up and full-room viewing

TRUE 4K PERFORMANCE

Supports up to 4K@30fps via USB 3.0 for ultra-clear, professional-grade video quality

AI INTELLIGENT TRACKING

Auto framing, speaker tracking, presenter tracking, and individual framing ensure every participant is always in view

WIDE COVERAGE & OPTICAL ZOOM

3x optical zoom and wide-angle fields of view (110° PTZ / 120° panoramic) provide exceptional flexibility in small to medium spaces

AI VOICE DETECTION

4-mic linear array delivers accurate voice localization and tracking for enhanced AI responsiveness

PLUG-AND-PLAY

Data, poUSB connectivity, HDMI output, and easy mounting options make installation fast and effortless, and control over a single category cable

BG-NUCLEUS-10X

NUC WINDOWS COMPUTER AND 1080P FHD PTZ CAMERA ALL-IN-ONE COMBO

Elevate your presentations and collaborative endeavors with the BG-NUCLEUS-10X, a groundbreaking fusion of an Intel NUC computer and a high-definition 1080P FHD PTZ camera. Packed with a robust i5 CPU, 16GB RAM, and a rapid 512GB M.2 SSD, it delivers unparalleled performance for seamless multitasking. The device's 10X optical zoom lens, 65° FOV, and crystal-clear visuals make it a dynamic choice for distance learning, videoconferencing, and captivating presentations. With versatile connectivity, compact design, and effortless audio capture, the BG-NUCLEUS-10X redefines how presentations are delivered and collaborations unfold.

Seamlessly navigate through major productivity platforms, utilizing the IR remote and 255 preset camera positions to find the perfect angle. Unleash a new era of presentations, where the BG-NUCLEUS-10X empowers you to focus on your content while leaving the logistics behind. Upgrade to a future of innovative presentations and interactions today.

Medical Cameras

BZBGear Medical Cameras

BZBGear medical cameras deliver cutting-edge video and audio capabilities designed to revolutionize medical AV systems. Featuring advanced 4K UHD video processing and two-way audio integration, these cameras simplify workflows by reducing the need for excessive equipment, minimizing cable runs, and optimizing space utilization.

Our innovative camera management and control application, Magna, empowers medical facilities to seamlessly set up and manage large-scale camera systems. Whether it's for patient room monitoring, security, conferencing, or all of the above, Magna ensures effortless operation and control.

Additionally, BZBGear medical cameras meet rigorous safety standards, backed by comprehensive certifications and thoroughly tested safety features to provide reliable performance in medical environments.

BG-NUTRIX

MEDICAL GRADE INTELLIGENT 4K UHD 30X NDI|HX PTZ CAMERA WITH NIGHT VISION/SPEAKERS/MICROPHONE/ MOTION DETECTION (IEC 60601 CERTIFIED)

EC Medical Certification, Night Vision, and Stereo Speakers: These features make the BG-NUTRIX ideal for various medical applications. The IEC 60601 medical certification ensures that the camera meets safety standards for medical environments. The IEC 60601 certification is a mandatory requirement for medical devices to be sold in most countries worldwide. It is designed to ensure the safety and reliability of medical equipment, particularly concerning the electrical and electronic components that make up the device.

The night vision feature allows the camera to function in low-light conditions, which can be essential for remote patient monitoring and medical procedures. The stereo speakers and microphone provide clear audio, which is important for communication during remote consultations, telemedicine, and live medical procedures.

Capture Cards

BZBGEAR CAPTURE CARDS

BZBGEAR capture cards offer a seamless solution for streaming and recording video and audio from external sources such as gaming consoles, cameras, and other devices. By converting HDMI or SDI signals to USB, these capture cards deliver resolutions ranging from 4K@60Hz up to 4K@120Hz, ensuring stunning image clarity and smooth, lag-free performance.

Designed for ease of use, BZBGEAR capture cards provide a plug-and-play experience, eliminating the need for complex setup or additional software. Fully compatible with popular streaming platforms and software like OBS Studio, Streamlabs OBS, vMix, and XSplit, they allow you to produce professional-grade content with minimal effort.

Whether you're a gamer, content creator, or broadcaster, BZBGEAR capture cards offer an efficient and high-quality solution for capturing and streaming your gameplay or other media. With features such as Full HD video support, audio integration, and optional 20X/30X optical zoom, these devices are ideal for taking your content creation to the next level.

BG-4KCHA**USB-C 4K60 VIDEO CAPTURE CARD BOX WITH SCALER/HDMI 2.0 LOOP OUT/AUDIO/HDR10 TO SDR CONVERSION SUPPORT**

The BG-4KCHA is an advanced USB-C 4K video capture device with a scaler, HDMI 2.0 loopout, audio, and HDR10 to SDR conversion, designed for professional HDMI video signal capturing. It uses a USB 3.1 Type-C Gen 1 (USB 3.0) interface, allowing for high-speed transmission. Additionally, the HDMI input and loopout can support up to 4K2K@60, enabling users to connect the BG-4KCHA to a 4K@60 source and capture Ultra HD (4K2K@30) video. With the capability to capture and display uncompressed HDMI video, the BG-4KCHA provides more realistic color renditions. Moreover, the BG-4KCHA employs large volume image buffer technology to effectively avoid video tearing, while the high sampling rate and accuracy result in captured videos with high sharpness, rich details, and fewer color edges.

Furthermore, the HDR10 to SDR conversion allows Playstation and Xbox players to enjoy 4K2K@60 HDR games on a 4K TV through the loopout HDMI port and record real-time 4K2K@30/1080P@120 video streams with SDR quality through the USB 3.0 port simultaneously.

3~4ms at 1080P

BG-4K120CHA**USB-C 4K120 VIDEO CAPTURE CARD BOX WITH SCALER/HDMI 2.1 LOOP OUT/AUDIO/HDR10 TO SDR CONVERSION SUPPORT**

The BG-4K120CHA is a cutting-edge USB-C 4K@120Hz video capture device with a scaler, HDMI 2.1 loopout, audio, and HDR10 to SDR conversion, designed for professional HDMI video signal capturing. It utilizes a USB 3.1 Type-C Gen 1 (USB 3.0) interface for high-speed transmission. Additionally, the HDMI input and loopout can support up to 4K2K 120Hz, enabling users to connect to a 4K2K 120Hz source and capture Ultra HD (4K2K@30) video. The BG-4K120CHA also captures and displays original uncompressed HDMI video, resulting in more realistic color rendition.

Moreover, the BG-4K120CHA incorporates large volume image buffer technology to effectively avoid video tearing, and the high sampling rate and accuracy ensure images with high sharpness, rich details, and fewer color edges. Furthermore, with HDR10 to SDR conversion, PS5/Xbox Players can enjoy 4K2K@120 HDR games on a 4K TV while recording real-time 4K2K@30/1080P@120 video streams with SDR quality through USB 3.0 simultaneously.

Compatible with most 3rd party software such as OBS Studio and AMCap

**MIC-IN-MIX**

Allows the microphone's audio input to be combined or mixed with the audio that is being transmitted through the HDMI connection

**LOW LATENCY**

3~4ms at 1080P

BG-12GCSA

USB-C 12G-SDI VIDEO CAPTURE CARD BOX WITH SCALER/ HDMI 2.0/12G-SDI LOOP OUT AND AUDIO

The BG-12GCSA is a USB-C 12G-SDI video capture device with a scaler, HDMI 2.0/12G-SDI loopout, and audio that provides a professional way to capture SDI video signals. It adopts a USB 3.1 Type-C Gen 1 (USB 3.0) interface, which allows for high-speed data transmission. Additionally, the SDI input and loopout can support up to 4K2K@60.

Users can connect the BG-12GCSA to a 4K2K@60 source and capture Ultra HD (4K2K@30) video. Furthermore, this unit can capture and display original, uncompressed SDI video, with a more realistic color rendition. The BG-12GCSA uses large volume image buffer technology, which effectively avoids video tearing. The high sampling rate and accuracy ensure that the captured videos have a high degree of sharpness, rich details, and fewer color edges.

Auto 12G/6G/3G/HD-SDI detection

Integration Tools

NO MORE GUESSWORK

AV integration tools are essential yet often underestimated in a technician's arsenal. These tools not only generate reliable test signals but, in select models, also analyze them, enabling technicians to swiftly diagnose issues with cabling, equipment, and compatibility. With our cutting-edge solutions, you can test HDMI signals at resolutions up to 4K@60Hz on our 4K models, and up to 8K@60Hz and 4K@120Hz on our 8K models.

For SDI signal testing, our 12G-SDI tester supports signals up to 4K@60Hz while maintaining backward compatibility with earlier SDI formats.

BG-AVTPG-MINI

4K/1080P HDMI 2.0 18GBPS PORTABLE SIGNAL TEST GENERATOR AND ANALYZER

The BG-AVTPG-MINI is a portable handheld 4K signal analyzer and test pattern generator. Capable of generating and analyzing HDMI signals at resolutions up to 4096x2160@60Hz 4:4:4, This powerful tool provides users with the ability to quickly test and verify HDMI cabling and equipment.

Supports a maximum resolution of 4K2K@60Hz, the BG-AVTPG-MINI can generate and analyze signals with chroma subsampling rates of 4:4:4 8-bit and 4:2:0 16-bit (HDR). This analyzer is HDCP 1.4 and 2.2 compliant, allowing users to test a wide variety of 1080P and 4K HDMI devices. The rechargeable battery provides an operating time of up to three hours.

The BG-AVTPG-MINI features three useful video test patterns designed to demonstrate signal quality and stability. The adjustable color depth allows users to test range of the connected equipment's capabilities. By connecting the HDMI output to the HDMI input, users receive a link quality estimate based on the HDMI 2.0 Character Error Detection.

Easily and quickly test HDMI devices

BG-AVTPG-MINI-G2

8K/4K/1080P HDMI 2.1 48Gbps PORTABLE SIGNAL TEST GENERATOR AND ANALYZER

The BG-AVTPG-MINI-G2 is a compact and portable device designed for professionals working with HDMI 2.1 signals. As a versatile tool, it serves as both a signal generator and analyzer, catering to installers and integrators. It supports a wide range of HDMI signals, including high-resolution formats like 8K60 4:2:0 10-bit and 8K30 4:4:4, as well as common resolutions like 4K60 and 1080P. For those running 4K at higher refresh rates, it also supports resolutions up to 4K120. The device's adjustable color depth feature enables easy assessment of display capabilities during testing.

In "Sink" mode, the BG-AVTPG-MINI-G2 functions as an HDMI signal detector, providing essential details about detected signals, such as resolution, frame rate, HDCP version, and other key HDMI characteristics. Its compatibility with HDMI 2.1 standards, adherence to HDCP 1.4 and 2.3 standards, and impressive operational range make it a reliable choice. The device's pocket-sized design and rechargeable battery, offering up to 3 hours of usage, enhance its portability for professionals on the move.

BG-AVTPG-4K

4K/1080P HDMI 2.0 18GBPS VIDEO TEST PATTERN GENERATOR/TESTER AND ANALYZER WITH ETHERNET

The BG-AVTPG-4K is a HDMI 2.0 test pattern generator and analyzer designed for professional A/V integrators and technicians. With a versatile array of functions and features, it's an essential part of any professional's toolkit. Capable of sending and receiving HDMI signals up to 4096 x 2160 4:4:4, this device makes it easy to test and verify functionality of AV cabling and equipment. Designed for the rigors of field use, the BG-AVTPG-4K is encased in a sturdy metal chassis with shock-resistant rubberized edges.

This portable device can be charged in as little as two hours with an operation time of up to four hours. Featuring an easy-to-use touchscreen interface, it is also equipped with a USB 2.0 port that can be used to connect a mouse for enhanced control.

Loaded with useful functions including a cable tester, multiple static and moving test patterns, a multi-channel audio tone generator, and EDID reader, the AVTPG-4K makes short work of troubleshooting HDMI connection problems. By utilizing the Ethernet connection, this device can be placed remotely and controlled via IP commands.

BG-SDITPG-G2

4K/1080P 12G-SDI VIDEO TEST PATTERN GENERATOR (12G/6G/3G/HD-SDI SUPPORT)

Introducing the BG-SDITPG-G2 12G/6G/3G/HD/SD-SDI Pattern Generator, the ultimate tool for SDI pattern generation and testing. This state-of-the-art device offers multi-format support for 12G/6G/3G/HD/SD and a wide range of test patterns, making it an essential tool for professionals in broadcasting, professional AV, and related industries.

The BG-SDITPG-G2 features a comprehensive set of video test patterns, including still and moving patterns, as well as audio support (SMPTE-291M) with up to 8 channels of AES-compliant audio at a 48KHz sample rate. With this generator, you can calibrate and test SDI-enabled video devices and displays with ease and precision. Designed for intuitive operation, the BG-SDITPG-G2 comes equipped with four buttons, a rotary switch, and an LCD screen, ensuring effortless control and management. Its user-friendly interface allows for quick access to various features, making it a cost-effective solution for all your SDI pattern generation needs.

Whether you're working with NTSC, PAL, 720p, 1080i, 1080p, or even 4K2K resolutions, the BG-SDITPG-G2 supports a wide range of output resolutions and bit rates. It delivers reliable performance and supports 10-bit color space, ensuring accurate and high-quality signal testing.

BG-4KBHS-PRO

HDMI 2.0 & 12G/6G/3G/HD-SDI CROSS CONVERTER AND SCALER WITH 3.5" LCD DISPLAY/BUILT-IN TEST PATTERNS / AUDIO EMBEDDER/DE-EMBEDDER

The BG-4KBHS-PRO is a professional-grade HDMI 2.0 and 12G/6G/3G/HD-SDI cross-converter and scaler built for high-performance signal conversion, monitoring, and analysis. Designed for broadcast, production, and professional AV applications, it supports up to 12G-SDI 4K60 and HDMI 2.0 4K60 video formats for seamless interoperability across a wide range of devices. Featuring an integrated 3.5" LCD display and intuitive push-button controls, it enables real-time signal monitoring and effortless on-screen configuration of video, audio, and output parameters.

Beyond simple conversion, the BG-4KBHS-PRO is a comprehensive diagnostic and calibration tool. Its advanced waveform and audio metering functions, combined with built-in test patterns and flexible scaling capabilities, make it an indispensable device for field engineers, content creators, and AV technicians who demand precision and reliability in every workflow.

For professional video analysis, the processor provides YCbCr waveform display, RGB monitoring, and audio level metering, viewable directly via the OSD or LCD interface. Engineers can access a suite of built-in test patterns to evaluate signal integrity, perform color calibration, or verify display alignment.

BG-AVTPG-8K

8K UHD HDMI 2.1 48GBPS ADVANCED SIGNAL TEST GENERATOR AND ANALYZER(1080P/4K/8K SUPPORT)

The BG-AVTPG-8K stands out as an HDMI 2.1 signal generator and analyzer, serving as an indispensable and versatile tool specifically crafted for integrators. It effortlessly accommodates the full bandwidth of HDMI 2.1 and HDCP 2.2, streamlining the installation and troubleshooting processes like never before.

This compact and portable device comes equipped with a robust rechargeable battery, an array of video test patterns, user-friendly touch panel controls, and convenient access to cloud-based firmware upgrades. Furthermore, the BG-AVTPG-8K boasts the capability to support up to 8 channels of LPCM audio with selectable sample rates.

The loop-through function of the BG-AVTPG-8K allows the connected HDMI input to seamlessly transmit to an external display or its own built-in 7.0" touch screen. This feature empowers users to swiftly verify HDMI sources, displays, and cables. Additional functionalities, such as the HDCP analyzer and loop tester, ensure that installers have all the essential tools at their fingertips, simplifying their tasks with efficiency.

Joystick Controllers

MANAGE MULTIPLE CAMERAS

BZBGEAR Joystick Camera Controllers provide precise, intuitive control for PTZ cameras, making them an ideal solution for both professionals and beginners. Whether you're operating a single camera or managing a multi-camera setup, these controllers streamline navigation, ensuring smooth, accurate camera movements. With the ability to easily recall presets at the touch of a button, the user experience is seamless and efficient.

These controllers, when paired with advanced software solutions, offer unparalleled ease of use and exceptional precision for any setup. Designed for maximum versatility, BZBGEAR Joystick Controllers are compatible with a wide range of cameras, supporting both IP and serial control protocols. This ensures effortless integration with both modern and legacy systems—whether you're upgrading an existing configuration, managing a hybrid setup, or building a new one from scratch.

Select models also feature camera feed monitoring and direct video output through HDMI and/or IP, offering even more flexibility and functionality for your AV needs.

BG-COMMANDER

UNIVERSAL ADVANCED SERIAL AND IP PTZ JOYSTICK CONTROLLER WITH POE (IP/RS-232/422/485)

The BG-Commander PTZ joystick controller delivers precise control for both IP and serial PTZ cameras. With high-quality backlit buttons, the BG-Commander offers a pleasing user experience - even in low-light conditions. The solid metal chassis provides a durable, stable platform and is designed to stand up to years of heavy use, regardless of the setting. This controller is a great choice for live events, houses of worship, and broadcasting scenarios.

Capable of controlling over 250 cameras, the BG-Commander provides a clean and uncluttered platform with 7 camera hot keys for your favorite devices and the capability to select other cameras by pressing and holding zero (0) for an extended selection makes this unit ideally suited for small to medium-scale productions.

Control for either IP or serial based PTZ cameras is provided by a LAN port or RS232, RS422, and RS485 connections. The BG-Commander supports IP VISCA, ONVIF, VISCA, PELCO-D, and PELCO-P control protocols.

BG-UHM

4K UHD USB/HDMI VIDEO SELECTOR AND MIXER

The BG-UHM USB/HDMI Video Selector and Mixer is a versatile and feature-rich solution designed to meet the demands of modern video production environments. Engineered for seamless integration, this compact device allows users to connect, switch, and mix multiple video sources effortlessly, offering unparalleled flexibility and functionality in a single unit.

The BG-UHM supports up to three video sources, including USB 3.0, USB 2.0, and HDMI inputs, enabling users to integrate diverse devices like webcams, laptops, and document cameras. With its customizable video mixing options, the BG-UHM delivers professional-quality results, allowing users to create unique layouts such as Picture-in-Picture (PiP), side-by-side, and big and small overlays. These layouts can be easily configured through a user-friendly web interface, making the device suitable for both novice and experienced users.

on our website

Features

MULTI-SOURCE CONNECTIVITY

1x USB 3.0, 1x USB 2.0, 1x HDMI 1.4

CUSTOMIZABLE VIDEO MIXING

Blend up to two input sources into a single output with layouts such as Picture-in-Picture (PiP), side-by-side, and overlay options. Layouts are fully configurable via the intuitive web interface

OUTPUT FLEXIBILITY

1x HDMI 2.0 output, 1x USB-C (UVC/UAC) output

AUDIO MANAGEMENT

Integrated audio mixing with inputs via HDMI, USB, and analog jacks. Mute video/audio streams as needed for precise control over live broadcasts

ADVANCED CONTROL OPTIONS

Manage the device via LAN, RS-232, or the web-based GUI for ultimate flexibility.

PoE SUPPORT

Power the device via PoE (802.3af), reducing cable clutter and simplifying installation

BG-UHD-MVS21A

2X1 4K UHD HDMI SEAMLESS SWITCHER/MULTIVIEWER WITH AUDIO DE-EMBEDDING

The 4K@60 2x1 Multiviewer Seamless UHD Video Switcher is designed to allow you to display multiple video sources at 4K resolution on a single screen. It combines two video signals and allows you to manage each input, create combinations of the two inputs, and adjust their positions on the display.

Besides instant switching between 2 sources the BG-UHD-MVS21A has the ability to display the two video inputs in a Picture-in-Picture (PIP) or Picture-by-Picture (PBP) mode. In PIP mode, one of the video inputs is displayed as a small inset window on top of the other input, which takes up the majority of the screen. In PBP mode, the two video inputs are displayed side-by-side, taking up equal or partial amounts of screen space.

This device supports a wide range of input resolutions up to 4096x2160p 60Hz. It also could de-embed audio from any of the sources in different formats for your external audio system. Supported audio formats are LPCM, AC3, DD+, DTS, DTS- HD. User can control the volume of audio in LPCM format. Multiple control options are available for the BG-UHD-MVS21A. It can be controlled through the front panel buttons, an IR remote, or RS-232 commands. EDID control is available through the RS-232 interface.

BG-UHD-MVS41A

4X1 4K UHD HDMI SEAMLESS SWITCHER/QUAD MULTIVIEWER WITH AUDIO DE-EMBEDDING

The 4K@60 4x1 Multiviewer Seamless UHD Video Switcher is designed to allow you to display multiple video sources at 4K resolution on a single screen. It combines four video signals and allows you to manage each input, create combinations of the four inputs, and adjust their positions on the display.

Besides instant switching between 4 sources the BG-UHD-MVS41A has the ability to display the four video inputs in a Picture-in-Picture (PIP) or Picture-by-Picture (PBP) mode. In PIP mode, one of the video inputs is displayed as a small inset window on top of the other input, which takes up the majority of the screen. In PBP mode, the four video inputs are displayed side-by-side, taking up equal or partial amounts of screen space.

This device supports a wide range of input resolutions up to 4096x2160p 60Hz. It also could de-embed audio from any of the sources in different formats for your external audio system. Supported audio formats are LPCM, AC3, DD+, DTS, DTS- HD. User can control the volume of audio in LPCM format.

BG-UHD-KVM41MV

4K UHD 4X1 SEAMLESS VIDEO & USB 3.0 KVM SWITCHER WITH MULTIVIEW/HOTKEY SWITCHING/IR CONTROL

The BG-UHD-KVM41MV is a powerful 4x1 seamless UHD KVM switcher designed to simplify multi-computer workflows while delivering uncompromised 4K60 video performance. It allows up to four HDMI source devices to be displayed and controlled on a single monitor, supporting both full-screen switching and advanced multiview layouts with smooth, glitch-free transitions.

Combining professional-grade video switching with full USB 3.0 KVM functionality, the BG-UHD-KVM41MV enables users to control multiple computers using one keyboard, mouse, and shared USB peripherals. With flexible control options, audio de-embedding, and broad OS compatibility, it is ideal for control rooms, broadcast environments, post-production, IT workstations, and collaborative professional AV applications.

Features

SEAMLESS HDMI SWITCHING

Switch between four HDMI sources to one display with no signal interruption

4K@60HZ SUPPORT

HDMI 2.0b with 18Gbps bandwidth and full 4:4:4 color

ADVANCED MULTIVIEW

Eight display modes including Single, PIP, PBP, Triple, and Quad

USB 3.0 KVM

Control up to four computers with one keyboard, mouse, and shared USB devices

ADVANCED AUDIO CONTROL

Analog and optical audio outputs with flexible source selection

MULTIPLE CONTROL OPTIONS

Front panel, IR remote, OSD, hotkeys, RS-232, and PC control software

BG-UHD-MVS42MA

4X2 4K UHD HDMI SEAMLESS SWITCHER/QUAD MULTIVIEWER WITH AUDIO DE-EMBEDDING

The 4K@60 4x2 Multiviewer Seamless UHD Video Matrix Switcher is designed to allow you to display multiple video sources at 4K resolution on two screens. It combines four video signals and allows you to manage each input, create combinations of the four inputs, and adjust their positions on the displays.

Besides instant switching between 4 sources and routing to two displays the BG-UHD-MVS42MA has the ability to display the four video inputs in a Picture-in-Picture (PIP) or Picture-by-Picture (PBP) mode. In PIP mode, one of the video inputs is displayed as a small inset window on top of the other input, which takes up the majority of the screen. In PBP mode, the four video inputs are displayed side-by-side, taking up equal or partial amounts of screen space.

This device supports a wide range of input resolutions up to 4096x2160p 60Hz. It also could de-embed audio from any of the sources in different formats for your external audio system. Supported audio formats are LPCM, AC3, DD+, DTS, DTS- HD. User can control the volume of audio in LPCM format.

It can be controlled through the front panel buttons, an IR remote, or RS-232 commands. EDID control is available through the RS-232 interface.

BG-UHD-QVP-4X2

**4X2 4K UHD SEAMLESS SWITCHER/SCALER/MULTIVIEWER
WITH AUDIO DE-EMBEDDING AND BUILT-IN USB CAPTURE
CARD**

The BG-UHD-QVP-4X2 is a powerful video processor that provides users with flexible and cost-effective solutions for routing ultra-high definition video from any of the four UHD HDMI sources to two remote displays simultaneously. With 4K2K@60 4:4:4 video resolution, this video processor delivers top-notch video quality with rich, vivid colors and crisp images.

One of the most impressive features of the BG-UHD-QVP-4X2 is its built-in USB 3.0 capture & auto scaling down features that allow users to record video or broadcast up to 1080p video & 2ch audio through real-time software such as Skype or Zoom.

With adjustable size & position of the image, the BG-UHD-QVP-4X2 provides users with complete control over how their content is displayed. Additionally, the processor supports PIP, PBP, POP, full screen & quad-view display, allowing users to create dynamic layouts and presentations that capture their audience's attention. The BG-UHD-QVP-4X2 also supports titles, borders, and colored backgrounds, which can be used to enhance the presentation's visual appeal.

BG-4K-VP44

4X4 4K UHD SEAMLESS HDMI MATRIX SWITCHER/VIDEO WALL PROCESSOR/MULTIVIEWER WITH SCALER/IR/AUDIO/IP AND RS-232

The BG-4K-VP44 is a powerful video processor and supports four HDMI inputs that can be independently routed to HDMI Outputs. This unit can create video walls, act as a multi-viewer and perform matrix functions! The BG-4K-VP44 supports Video Wall configurations of up to 7 different modes with each monitor. It can also display four pictures on the same screen and has multiple split display modes.

With max resolutions up to 4K@60HZ 4:4:4, the BG-4K-VP44 is capable of producing high-quality imagery with pristine detailing and rich color. All HDMI ports on this unit are HDCP 2.2 compliant. This device also supports analog audio extraction, and audio channels can be switched independently.

The BG-4K-VP44 offers multiple control methods including front panel controls, IR remote control, RS-232, or IP control. The included IR receiver allows the unit to be controlled with the included remote while located out of sight for a clean installation.

Signal Extenders

HDMI Extenders Over Category Cable

BZBGEAR SIGNAL EXTENDERS OVER CATEGORY CABLE

HDMI extenders are essential devices that enable the transmission of HDMI audio and video signals over distances far exceeding the 50-foot limit of standard HDMI cables. By utilizing category cables like Cat5e, Cat6, Cat6a, or Cat7, these extenders deliver high-quality signals up to several hundred feet, making them ideal for professional AV setups, educational environments, and large-scale installations. BZBGEAR HDMI extenders are designed to excel, offering cutting-edge features like true 8K@60Hz and 4K@120Hz support for unmatched video quality, comprehensive audio format compatibility for seamless audio-video synchronization, and IR passthrough for effortless remote control functionality.

Available in various configurations, HDMI extenders cater to a wide range of needs—from budget-friendly Cat5e/6 solutions for moderate distances to advanced options like HDBaseT for extended runs. These extenders ensure signal integrity, provide stable connections, and support advanced features such as HDCP and EDID management. With these capabilities, BZBGEAR extenders offer reliable, high-performance solutions for 4K and 8K AV installations.

BG-EXH-50C

4K UHD HDMI EXTENDER OVER CAT5E/6/7 WITH BI-DIRECTIONAL IR/POC UP TO 165FT

The BG-EXH-50C HDMI 2.0 extender over a single CAT5/6 cable is a versatile and high-quality solution for extending source signals with resolutions up to 4K@60Hz (4:4:4) for distances of up to 165ft (50m). The device is perfect for a wide range of applications, including home entertainment, commercial installations, and digital signage. The transmitter unit of the BG-EXH-50C also features an HDMI loop output, which can be used to connect a local monitor or as an input to another extender or any other HDMI equipment. This feature adds to the versatility of the device and ensures that users have multiple output options.

The BG-EXH-50C is HDCP 2.2 compliant, ensuring that it is fully compatible with the latest content protection standards. This feature provides users with peace of mind and ensures that their content is protected. Overall, the BG-EXH-50C HDMI 2.0 extender over a single CAT5/6 cable is a highly versatile and reliable solution that offers a range of advanced features to cater to all your signal extension needs.

Durable metal structure built to withstand years of operation

BG-EXH-70C3

4K UHD HDMI EXTENDER OVER CAT5E/6 WITH BI-DIRECTIONAL IR/POC/ARC AND AUDIO DE-EMBEDDING UP TO 230FT

The BG-EXH-70C3 is an 18Gbps HDMI extender that can transmit HDMI and IR control signals up to 230ft(70m) via a single CAT6/6a cable and the uncompressed, long-distance transmission between the transmitter and receiver is achieved with zero-delay. These devices are also HDMI 2.0b and HDCP 2.2 compliant ensuring content is protected. The extenders feature bi-directional IR and power over cable(PoC) meaning only one of the units in the pair needs a power supply while IR blaster and receiver cables can be utilized to control devices on either end of the system simplifying a clean installation.

EDID copy pass-through between the source and display devices help to ensure the best signal quality possible. Video resolution is crystal clear with up to 4K2K@60Hz 4:4:4 along with rich colors provided by HDR, HDR10, HDR10+, Dolby Vision, and HLG. ARC and audio de-embedding via the receiver optical port support LPCM 7.1, Dolby True HD, and DTS HD Master formats. The flexible and compact design of the BG-EXH-70C3 allows for a wide range of uses where signal sources may need to be further away from their displays.

Features

LONG DISTANCE

Supports a transmission extension distance of up to 230ft/70m via a CAT6/6a cable

HDR SUPPORT

Specifically mentions support for HDR, HDR10, HDR10+, Dolby Vision, and HLG

AUDIO FORMATS

Supports LPCM 5.1, Dolby True HD, and DTS HD Master audio formats

EDID COPY PASS-THROUGH

Features an EDID copy pass-through function between the source and display devices

DIGITAL AUDIO EXTRACTION

The receiving unit (RX) can extract digital audio from the transmitter via ARC from a display through the TOSLINK port

HDMI LOOP-OUT

Loop-out to view content locally at the transmitter side

BG-EXH-70C4

4K UHD HDMI HDBASET EXTENDER WITH IR/ARC/POC/RS-232
AND AUDIO EMBEDDING/DE-EMBEDDING UP TO 230FT

Introducing the BG-EXH-70C4, the ultimate solution for extending your HDMI signals over a long distance of up to 70m / 230ft. This extender is a highly efficient device that converts your HDMI signal to standard HDBaseT and transmits it via single CAT5e/6 ethernet cable. With a bandwidth of 18Gbps, the device is compliant with HDMI 2.0b and HDCP 2.2 standards. The video resolution that can be achieved using this extender is up to 4K2K@60Hz RGB/YCBCR 4:4:4, which ensures that you enjoy crystal clear images and vibrant colors.

The BG-EXH-70C4 also supports bi-directional IR and RS-232 control signal pass-through, which enables you to easily control signal source or display devices from a remote location. Additionally, the device supports ARC functionality, which makes it possible to transmit audio signals from your TV back to your home theater system without the need for an extra cable. In terms of audio support, the device can handle various formats, including Dolby 5.1, DTS 5.1, and PCM2.0, etc. Lastly, the compact design of this device ensures that it can be easily and flexibly installed, making it an ideal solution for any home or office.

HDBASET TECHNOLOGY

The HDMI signal is converted to standard HDBaseT, and transmitted using a LAN cable.

BG-EXH-100C5

4K UHD HDMI HDBASET EXTENDER WITH IR/ARC/POC/RS-232/ETHERNET AND AUDIO EMBEDDING/DE-EMBEDDING UP TO 330FT

The BG-EXH-100C5 is an 18Gbps HDMI HDBaseT extender that transmits high-definition audio / video, RS-232, bi-directional IR, and internet signals to a distance of up to 328ft (100m) between the transmitter and receiver using a single CAT6/6a cable. Featuring video resolutions up to 4K@60Hz 4:4:4 and HDR, HDR10+, Dolby Vision, and HLG ensure the best image possible.

The integrated bi-directional IR pass-through allows for source and display control from either end of the system. The BG-EXH-100C5 transmitter and receiver are also capable of power over cable (PoC) meaning only one unit in the pair needs a power supply. Each unit also has a LAN port to further eliminate the need for extra cable runs. The system supports ARC and various audio formats such as Dolby Digital, Dolby TrueHD, LPCM, and many more as well as local audio extraction. This set of robust features in such a compact design makes for easy, flexible, and high quality installation options.

4K UHD HDMI/HDBASET 3.0 EXTENDER WITH IR/EARC/ARC/POC/RS-232/ETHERNET/USB 2.0 AND AUDIO EMBEDDING/DE-EMBEDDING UP TO 330FT

Experience unparalleled audio and video transmission with the BG-EXH-100C6 HDBaseT 3.0 extender by BZBGEAR. This state-of-the-art device unleashes uncompressed HD/UHD audio and video, along with eARC/ARC, RS-232, bi-directional IR, 1Gb Ethernet, and USB 2.0 signals up to an impressive distance of 328ft(100m) using just a single CAT6A/7 cable. With USB 2.0 host/device configurability, the BG-EXH-100C6 offers maximum flexibility and functionality, making it the perfect solution for a KVM setup. And, with bi-directional power over cable (PoC), there's no need for a second power adaptor, saving you time and money.

The BG-EXH-100C6 can support resolutions up to 4K@60Hz 4:4:4, and boasts HDR10, HDR10+, Dolby Vision and HLG technology, ensuring unparalleled picture quality. The transmitter can also embed or de-embed audio, while the receiver supports audio de-embedding. Plus, with eARC/ARC from the receiver's HDMI output, you can enjoy top-notch audio quality on your local audio system, or opt to use the transmitter's HDMI audio only and SPDIF output ports.

BG-EXH-8K150C

8K UHD HDMI HDBASET LONG RANGE EXTENDER WITH BI-DIRECTIONAL IR/RS-232/CEC UP TO 490FT

Experience superior long-distance AV performance with this high-performance 8K HDBaseT extender, engineered to transmit HDMI, RS-232, and IR signals over a single twisted pair cable. With support for up to 8K@30Hz (4:4:4) and 4K@120Hz (4:4:4) video formats, this extender ensures uncompromised signal integrity and crystal-clear visuals across professional AV setups, control rooms, and home theater installations.

Built for reliability and versatility, the system seamlessly converts HDMI and control signals for efficient HDBaseT transmission, restoring them at the receiver end with zero quality loss. Offering flexible control options, robust audio support, and advanced gaming and HDR compatibility, this extender is the perfect solution for high-performance, long-distance AV distribution.

For modern AV environments, the extender supports an extensive range of video and audio standards - including HDR10, HDR10+, Dolby Vision, and HLG - as well as immersive sound formats such as Dolby Atmos, TrueHD, and DTS-HD Master Audio.

Features

8K & 4K LONG-DISTANCE TRANSMISSION

Transmits 8K@30Hz (4:4:4) and 4K@120Hz (4:4:4) signals up to 90m (295ft), 4K@60Hz up to 120m (394ft), and 1080p up to 150m (492ft) via CAT cable for reliable, long-range performance

HDMI 2.1 & HDCP 2.3 COMPLIANCE

Fully compliant with the latest HDMI and content protection standards, ensuring secure and consistent transmission across all compatible devices

8K ULTRA-HIGH BANDWIDTH SUPPORT

Delivers up to 40Gbps FRL and 18Gbps TMDS, supporting next-generation 8K and high-frame-rate 4K video without signal loss or latency

COMPREHENSIVE CONTROL INTEGRATION

Supports bi-directional IR, RS-232, and CEC pass-through, enabling full device control and automation through a single cable connection

ADVANCED AUDIO & HDR SUPPORT

Handles top-tier audio formats like Dolby Atmos, DTS-HD Master Audio, and TrueHD, plus HDR formats including HDR10, HDR10+, Dolby Vision, and HLG for vivid, lifelike visuals

POWER OVER CABLE (POC)

Simplifies installation by providing bi-directional PoC, allowing both units to be powered through one connection, reducing setup time and power supply requirements

BG-EXH-8KC6

8K UHD HDMI 2.1 EXTENDER - 8K30/4K120HZ WITH IR/EARC/ARC/POC/RS-232/ETHERNET/USB 2.0 AND AUDIO EMBEDDING/DE-EMBEDDING UP TO 330FT

The BG-EXH-8KC6 is an 8K HDMI and USB over HDBaseT Extender designed to extend the range of uncompressed HD/UHD video and audio signals, including eARC/ARC, RS-232, bi-directional IR, 1GbE Ethernet, and USB 2.0 signals, up to 295ft (90m) using a single CAT6A/7 cable.

This extender supports video resolutions up to 8K@30Hz 4:4:4 10-bit, 4K@120Hz 4:4:4 10-bit, and 4K@60Hz 4:4:4. Additionally, it incorporates eARC/ARC functionality, allowing the transmission of audio signals from the receiver HDMI output pass-through to the transmitter's HDMI input or audio de-embedding to the transmitter's output port.

The device also facilitates USB 2.0 signal transmission with configurable Host/Device settings per device and bi-directional Power over Cable (POC) functionality. For home or commercial applications requiring long-distance signal transmission, the BG-EXH-8KC6 stands out as the ideal 8K signal solution.

Features

COMPLIANT
HDMI 2.1, HDCP 2.3, and HDBaseT 3.0 compliant

8K **8K@30HZ AND 4K@120HZ**
Video resolution is up to 8K@30Hz 4:4:4 10-bit, 4K@120Hz 4:4:4 10-bit

8K EXCLUSIVE FEATURES
Variable Refresh Rate (VRR), Fast as Possible V-active (FVA), Auto Low Latency Mode (ALLM) support

HDR **SMOOTH IMAGE PROCESSING**
HDR, HDR10, HDR10+, Dolby Vision and HLG pass-through

HDMI AUDIO FORMATS
Dolby Atmos, Dolby TrueHD, Dolby Digital Plus and DTS-HD Master Audio

ADVANCED EDID
Management through EDID DIP switches

BG-EXH-4KC7

4K UHD HDMI/USB-C KVM HDBASET 3.0 EXTENDER/ SWITCHER WITH USB 3.0/ETHERNET/IR/RS-232/POE

The BG-EXH-4KC7 is a high-performance HDBaseT 3.0 extender designed to deliver 4K60Hz 4:4:4 HDR video and USB-C/HDMI connectivity over distances of up to 100 meters via CAT6A/7 cables. Featuring dual inputs (USB-C and HDMI) with auto/manual switching, the transmitter supports DP-ALT mode for audio/video transmission, USB 3.0, 1G Ethernet, and up to 100W power delivery. The receiver offers flexible outputs with HDMI or USB-C and includes USB 2.0 ports for peripherals. Advanced HDR formats, such as HDR10+, Dolby Vision, and HLG, ensure stunning video quality, while analog audio de-embedding on both the transmitter and receiver simplifies audio integration.

Packed with professional-grade features, the BG-EXH-4KC7 includes RS-232 and CEC control, API support, and 1G Ethernet pass-through for seamless system integration. It supports bidirectional Power over Cable (PoC) for streamlined installations and offers long-reach HDBaseT functionality, extending 1080p60 signals up to 150 meters. With robust performance and versatile applications, this extender is ideal for conference rooms, educational institutions, and professional AV environments demanding reliable, high-quality signal transmission.

Features

ADVANCED HDR SUPPORT

Compatible with 4K60Hz 4:4:4, HDR10+, Dolby Vision, HLG, and Low Latency Mode (LLM).

LONG-DISTANCE TRANSMISSION

Transmits 4K60Hz signals up to 100m over CAT6A/7 cables.

VERSATILE USB-C INPUT

DP-ALT mode enables USB 3.0, 1G Ethernet, and up to 100W charging.

INTEGRATED AUDIO EXTRACTION

Dolby Atmos, Dolby TrueHD, Dolby Digital Plus and DTS-HD Master Audio

SEAMLESS AUTOMATION

RS-232 pass-through and API support for integration into control systems.

SIMPLIFIED POWER MANAGEMENT

Bidirectional 24V Power over Cable (PoC) minimizes power supply needs.

BG-IPGEAR-XTREME-CORE

4K120 UHD HDMI 2.1 EXTENDER WITH IR/EARC/ARC/POC/
RS-232/ETHERNET/USB/KVM/BALANCED AUDIO UP TO 560FT

The BG-IPGEAR-XTREME-CORE is a next-generation HDMI 2.1 over IP multicast distribution system designed to deliver uncompromised Ultra-HD performance across scalable AV networks. Supporting up to 4K@120Hz 4:4:4 with ultra-low latency, it enables pristine video, high-bit-rate audio, and advanced gaming features to be transmitted up to 170 meters (560 ft) over standard Cat5e/6/6a/7 cabling. This makes it an ideal backbone for high-performance AV environments where quality, responsiveness, and flexibility are critical.

Built for both point-to-point and fully managed multicast deployments, the BG-IPGEAR-XTREME-CORE integrates seamlessly into 1GbE networks with IGMP snooping support. With bi-directional IR, RS-232, Ethernet pass-through, and USB 3.1 extension, it delivers complete signal and control transport over a single network infrastructure, perfect for professional AV, enterprise, healthcare, esports, and high-end residential applications.

Features

HDMI 2.1 OVER IP MULTICAST

Distributes full-bandwidth HDMI 2.1 signals over standard 1GbE networks with multicast support

4K@120HZ 4:4:4 PERFORMANCE

Delivers Ultra-HD video with no compression artifacts or chroma loss

ULTRA-LOW LATENCY

Less than one frame of latency for real-time, interactive applications

ADVANCED CONTROL INTEGRATION

Supports bi-directional IR, RS-232, Ethernet, and USB 3.1 extension

SCALABLE NETWORK ARCHITECTURE

Supports point-to-point, point-to-many, and multicast configurations

HIGH-BIT-RATE AUDIO SUPPORT

Passes uncompressed 7.1ch audio, Dolby TrueHD, DTS-HD MA, and eARC/ARC

Signal Extenders

Display Port Extenders Over Category Cable

BZBGEAR DISPLAYPORT EXTENDERS OVER CATEGORY CABLE

BZBGEAR's DisplayPort extenders offer an affordable, high-performance solution for extending DisplayPort signals over category cables while preserving exceptional video and audio quality. Supporting DisplayPort 1.2 and HDCP 2.2 standards, these extenders handle resolutions up to 4K UHD at 60Hz with YUV 4:4:4 color accuracy, ensuring stunning visuals. With advanced audio compatibility, including LPCM, Dolby Digital Plus, and DTS, they deliver superior sound quality.

Unlike traditional extenders prone to signal degradation, BZBGEAR's smart compression technology enables visually lossless transmission over long distances. These extenders can extend 1080p signals up to 492 feet (150 meters) and 4K signals up to 328 feet (100 meters) over a single Ethernet cable, far exceeding the 15-meter limitation of standard DisplayPort cables.

KVM AND IR
FUNCTIONALITY

BG-EXD-150C

4K UHD DISPLAYPORT 1.2A KVM EXTENDER KIT OVER HDBASET WITH USB/IR/RS-232 UP TO 492FT

The BG-EXD-150C is a 4K60 DisplayPort (DP) range extender capable of transmitting DP video, bi-directional IR, and RS-232 control signals, as well as USB KVM signals. It can transmit signals over distances of up to 328ft/100m for a 4K60 signal and 492ft/150m for a 1080P signal using a single CAT6 cable.

The BG-EXD-150C converts the DP signal into a standard HDBaseT signal, transmitting it via a LAN cable. Users can easily control the signal source device or the display device using a remote, thanks to the bi-directional IR signal pass-through feature. The extender supports video resolutions of up to 4K2K@60Hz YUV 4:4:4 and also provides a bi-directional POC function.

Furthermore, with support for DisplayPort 1.2, this extender facilitates the transmission of visually lossless 4K Ultra HD resolutions, making it ideal for striking digital signage or detailed content in medical settings. The extender is also compatible with lossless audio formats, including Dolby TrueHD and DTS-HD, enhancing video content with powerful multi-channel sound, thus elevating the viewer's experience. The USB KVM connectivity ensures full control of a DisplayPort PC from a local console, which can be kept in a secure or temperature-controlled environment, all while seamlessly delivering consistent video content to the display.

Signal Extenders

KVM/USB Extenders Over Category Cable

BZBGEAR KVM/USB EXTENDERS OVER CATEGORY CABLE

BZBGEAR KVM (Keyboard, Video, Mouse) extenders allow the seamless extension of computer peripherals—keyboard, monitor, and mouse—over long distances using a single category cable (e.g., Cat5e, Cat6, or Cat7). These extenders are perfect for environments where computers need to be stored in secure locations, while user interfaces can be placed remotely. They provide a cost-effective and reliable solution for transmitting signals over long distances.

BZBGEAR KVM extenders are equipped with advanced features such as Power over Cable (PoC), USB hot-plug functionality, and low-latency transmission technology. This ensures superior video quality, smooth peripheral integration, and real-time responsiveness for users.

These extenders improve security by keeping sensitive equipment in secure areas, optimize space by relocating computers, and reduce noise in office environments. They also offer flexible connectivity, supporting ranges of up to 300 feet or more. Ideal for centralized control, remote workstations, and specialized applications like digital signage, remote diagnostics, and industrial machinery control, BZBGEAR KVM extenders are a versatile solution for modern AV setups.

BG-USB-LR100

2-PORT USB 2.0 EXTENDER OVER CAT5E/6/7 CABLE UP TO 330FT

The BG-USB-LR100 device is designed to extend the reach of your PC's USB 2.0 port, enabling you to connect peripheral devices at distances up to 100 meters (328 feet). With a data transfer rate of up to 480 Mb/s, this device allows for fast and reliable connectivity via a single category cable. Whether you need to connect remote security keypads, web cameras, printers, or any other USB peripheral devices beyond the 15ft limitation of a standard USB cable, the BG-USB-LR100 is the solution for you. Enjoy seamless performance and increased flexibility in a wide range of applications with this innovative device.

The BG-USB-LR100 comes with a locking power supply, ensuring the device stays securely connected and powered on. This is especially useful in environments where the device may be subject to movement or jostling, as it helps prevent accidental disconnection of the power supply.

The BG-USB-LR100 has a compact design, making it easy to transport and use in various settings. Whether you're working in a small office or a large industrial space, the compact size of the BG-USB-LR100 means that it won't take up too much space on your desk or work area.

Features

PLUG AND PLAY
No drivers needed

USB 2.0
480Mb/s transfer speed

LONG RANGE
Extends USB 2.0 signal up to 328 feet

INTEGRATED USB HUB
Share a single USB connection with two devices at a long distance

RUGGED DESIGN
Durable metal enclosure designed to last for years of operation

POC
Power over Cable eliminates the need for a second power supply

BG-USB3-LR100

4-PORT USB 3.0 HDBASET EXTENDER OVER CAT6/7 CABLE WITH POC/RS-232/FSYNC GPIO UP TO 330FT

The BG-USB3-LR100 USB 3.0 Extender is an essential tool for extending USB connections over long distances, capable of transmitting signals up to 100 meters (328 feet) using a single CAT6a cable. Designed for reliability and performance, this extender ensures high-speed data transfer with rates up to 5Gbps, making it ideal for various applications, including industrial settings and large-scale installations.

The transmitter features a USB 3.0 Type B input, FSYNC GPIO input, and RS-232 pass-through, while the receiver offers four USB 3.0 Type A outputs, FSYNC GPIO output, and RS-232 pass-through. This setup supports bi-directional 24V Power over Cable (PoC), simplifying power management and installation.

The BG-USB3-LR100 USB 3.0 Extender is a versatile and powerful solution for extending USB connectivity over long distances, combining high-speed data transfer, broad compatibility, and easy installation to meet the needs of both industrial and commercial applications.

Features

LONG DISTANCE

Extends USB 3.0 connections up to 100 meters (328 feet) over CAT6a cable

FAST TRANSFER RATES

Provides USB 3.0 connectivity with data transfer rates up to 5Gbps

BACKWARD COMPATIBLE

Compatible with USB 2.0 and USB 1.1 devices

BI-DIRECTIONAL POC

Supports bi-directional 24V Power over Cable (PoC)

PLUG-AND-PLAY

Easy plug-and-play setup with no driver or settings installation required

CAMERA APPLICATIONS

Includes RS-232 and FSUNC GPIO pass-through for camera applications

Signal Extenders

HDMI Extenders Over Coax RG6 Cable

BZBGEAR HDMI EXTENDERS OVER COAX RG6 CABLE

Coaxial cables are capable of extending HDMI signals up to 110m (363ft) without compromising output quality, making them perfect for large venues or long-distance connections between buildings. Known for their durability and ability to block signal interference, coax cables are often used in professional AV setups where high-quality signal transmission is crucial. The RG6 coaxial cable, an 18 AWG type, is optimized for high-bandwidth and high-frequency applications, ensuring superior signal integrity and performance.

Coaxial cables are not only affordable but also easy to install and maintain, offering a robust solution for extending HDMI over long distances. They support high-quality, high-speed HDMI signals over coax, providing reliable and durable signal transmission.

BG-EXHOC

4K UHD HDMI EXTENDER OVER SINGLE COAX CABLE WITH BI-DIRECTIONAL IR

The BG-EXHOC is a 4K HDMI signal extender that increases the range of an HDMI input signal up to 110m (363ft) over a single coaxial cable. The use of coaxial cable provides a durable, inexpensive method of transmitting uncompressed HDMI signals over long distances.

TAA COMPLIANT PRODUCT. This product meets the standards of the Trade Agreement Act (TAA).

The BG-EXHOC can extend HDMI signals to its maximum range with resolutions up to 4K2K@60Hz 4:4:4. The extender is also HDMI 2.0 compliant and supports HDCP 2.2/1.4 input and output. To achieve this level of quality, the unit sends the full uncompressed HDMI signal through the coaxial cable. Belden 1694A coaxial cable is recommended for maximum performance. The BG-EXHOC has a maximum data rate of 18Gbps and features automatic signal equalization.

Signal Extenders

Fiber Optic Extenders

BZBGEAR FIBER OPTIC EXTENDERS

BZBGEAR Fiber optic extenders are devices that extend AV signals over long distances using fiber optic cables, which transmit data as light signals, allowing for faster speeds and longer distances without signal degradation. Unlike copper cables, which are limited by distance and interference, fiber optics can support high-bandwidth applications, making them ideal for environments like medical imaging, broadcast studios, and corporate installations. Benefits include long-distance transmission, high signal quality, immunity to electromagnetic interference, and future-proof capabilities for handling increasing data demands.

Select fiber optic extenders support high-resolution formats such as 8K HDMI and USB 3.0, and many are plug-and-play for easy setup. They are particularly advantageous for large-scale installations where long-distance signal transmission is needed, providing a reliable and high-performance solution. While they tend to be more expensive than copper alternatives, their superior performance and ability to support high-bandwidth applications make them a worthwhile investment.

BG-EXUF

4-PORT USB 2.0/3.0/3.1 SUPERSPEED EXTENDER OVER FIBER OPTIC CABLE

The BZBGEAR BG-EXUF is a 4-port fiber optic USB 3.1/2.0/1.1 extender that extends USB 3.1 up to 328ft (100m) and USB 2.0/1.1 up to 6.2mi (10Km) over single-mode or multi-mode fiber optic cabling. Designed with a four-port hub to extend up to four USB devices without the need for an additional device. Each port supports data transfer speeds up to 5Gbps (USB 3.1).

Installation and use of the BG-EXUF is effortless with four mounting holes built into its sturdy metal chassis and no requirements for drivers. The advanced optical fiber transmission technology eliminates electromagnetic interference.

The BG-EXUF features LED status lights that provide users with real-time feedback on the device's operational status. The LEDs indicate when the device is powered on, connected to a fiber optic cable, and transmitting data, making it easy to troubleshoot issues and ensure optimal performance.

BG-FES12G

4K UHD 12G-SDI OVER FIBER OPTIC EXTENDER (12G/6G/3G/HD/SD-SDI SUPPORT)

The BG-FES12G is an advanced SDI extender that enables the extension of multiple SDI formats (12G/6G/3G/HD) with embedded audio up to a distance of 10 km (6.25 miles) over a single-mode fiber optic cable. With transmission speeds of up to 11.88 Gbps, this device ensures fast and reliable signal transmission for your SDI applications.

The transmitter and receiver units of this extender both feature equalizing and re-clocking functions, which help to maintain consistent signal quality over long distances. Additionally, the transmitter includes a handy SDI loop-out port for local display. The locking power supply featured on both units ensures a secure and reliable connection, giving you peace of mind and worry-free operation.

With the BG-FES12G, you can enjoy exceptional signal quality and reliable performance for all your SDI applications, whether it's for broadcasting, post-production, or live events.

BG-IPGEAR-XTREME-F

4K/8K UHD HDMI 2.1 FIBER EXTENDER KIT WITH BI-DIRECTIONAL IR/RS-232/GIGABIT ETHERNET/USB & KVM

The BG-IPGEAR-XTREME-F is a cutting-edge HDMI 2.1 over fiber extender designed for mission-critical AV transmission in broadcast, medical imaging, eSports, control rooms, and high-end home theater applications. With support for uncompressed 4K60 4:4:4 and visually lossless 4K144 4:4:4, it also enables 8K@60Hz 4:4:4 DSC transmission, ensuring next-generation video performance with zero-frame latency over distances up to 10km (6.25 miles) via single-mode fiber optic cable.

Beyond video, this extender provides full-featured connectivity with bi-directional IR, full-duplex RS-232, USB 3.1 KVM, eARC/ARC, and 1Gb Ethernet pass-through. With its interference-free fiber optic transmission, the BG-IPGEAR-XTREME-F is engineered to deliver the ultimate in high-resolution video, data, and control extension over long distances.

**8K UHD HDMI 2.1 OVER FIBER EXTENDER - 8K60/4K120HZ
WITH IR/RS-232/EDID MANAGEMENT & AUDIO
EMBEDDING/DE-EMBEDDING**

Introducing the BG-EXH-8KF, a cutting-edge HDMI over Fiber extender that redefines your audiovisual experience. This advanced extender is HDMI 2.1 and HDCP 2.3 compliant, ensuring seamless connectivity and support for the latest technologies.

The BG-EXH-8KF HDMI over Fiber extender is a cutting-edge solution that caters to gamers, home theater enthusiasts, and professional integrators alike. With support for advanced gaming features like VRR, ALLM, QMS, QFT, and SBTM, gamers can enjoy a seamless and immersive experience. Home theater enthusiasts benefit from unparalleled video quality, including 8K@60 4:2:0 12-bit and 4K@120Hz 4:4:4 12-bit video transmission, along with comprehensive HDR support for vivid visuals.

Professional integrators appreciate its flexibility with compatibility across multimode fiber grades, auto-downscaling features, and versatile audio format support. Designed for hassle-free installation, the extender allows HDMI signal extension up to 300 meters, ensuring uncompromised quality and reliability.

BG-UHD-18GFE

4K UHD HDMI USB KVM EXTENDER KIT OVER FIBER WITH HDR/2-WAY IR/RS-232 (NO SFP MODULE INCLUDED)

The BZBGEAR BG-UHD-18GFE is a premium 4K HDMI KVM extender that provides reliable, lossless, and latency-free transmission of uncompressed 4K@60Hz 4:4:4 HDMI video with USB 2.0. Operating over single-mode fiber optic cabling, this extender is capable of transmitting signals up to 6.25 miles (10km), making it an ideal solution for remote workstations and large-scale installations that demand high-quality video and KVM control over long distances.

Designed to meet TAA compliance requirements, the BG-UHD-18GFE delivers robust and secure performance that meets the stringent demands of government agencies, military installations, and large campuses. Supporting 18Gbps HDMI transmission rates, the extender provides lossless video with zero latency, ensuring that video and KVM control remain in perfect sync. With HDMI 2.0 ports that are HDCP 2.2 compliant and support for HDR video signals, this extender delivers stunning visuals with uncompromising clarity and detail. In addition to video and KVM functionality, the BG-UHD-18GFE is equipped with RS-232 and bi-directional IR pass-through, providing enhanced control and flexibility for a wide range of applications.

Signal Extenders

Wall Plate Extenders

BZBGEAR WALL PLATE EXTENDERS

An AV wall plate extender kit provides a seamless solution for extending HDMI or DisplayPort signals over CAT cable while offering a clean, integrated installation. The kit includes a transmitter, which connects to source devices like HDMI, DP, or USB-C inputs, and a receiver that transmits the signal to a display. The system supports extended transmission distances of up to 164ft (50m) at 4K@24Hz or 115ft (35m) at 4K@60Hz over CAT6 cable, ensuring high-quality video and audio performance. The transmitter is housed in a sleek one-gang Decora-style enclosure, while the compact receiver can be discreetly mounted behind the display. Features like Power Over Cable (POC) simplify installation by powering the transmitter via the receiver, reducing cable clutter.

These AV wall plates are ideal for a variety of applications, including home theater setups, professional AV installations, and conference rooms. They support high-speed video with 18Gbps HDMI and 5.4Gbps USB-C input bandwidth, and are compatible with a range of audio formats such as LPCM, Dolby, DTS, and DSD. The extenders are compliant with industry standards, including HDMI 2.0b, HDCP 2.2, and DisplayPort 1.2a, ensuring compatibility with modern devices and providing a high-performance solution for video distribution.

BG-EXH-50UWP-W

4K UHD 18GBPS HDMI/USB-C WALL PLATE TRANSMITTER/RECEIVER KIT UP TO 164FT

Introducing the BG-EXH-50UWP-W 18Gbps CAT 164ft Wall Plate Kit, a comprehensive solution for seamless signal transmission and distribution. This kit comprises a USB-C/HDMI Transmitter and a CAT6 to HDMI Receiver, designed to meet the demands of modern AV installations. Enclosed within a sleek one-gang Decora-style enclosure, the wall plate transmitter serves as a versatile 2x1 switcher and CAT transmitter, accommodating HDMI and USB-C inputs.

With support for resolutions up to 4K2K@50/60Hz 4:4:4 and a transmission distance of up to 164ft / 50m via CAT6 output, this kit ensures exceptional visual fidelity and flexibility. Additionally, the BG-EXH-50UWP-W kit supports various HDMI audio formats, HDR, and features a user-friendly interface with automatic/manual input signal selection. Its compatibility with Power Over Cable (POC) further enhances convenience, allowing remote powering from the receiver or other CAT-equipped devices.

Features

STANDARDS COMPLIANCE

Compliant with industry standards including HDMI 2.0b, HDCP 2.2, and DisplayPort 1.2a (Adapter required for Display Port)

VIDEO BANDWIDTH

HDMI input supports high-speed 18Gbps video bandwidth, while USB-C input supports 5.4Gbps video bandwidth

EXTENDED TRANSMISSION

CAT6 output extends video transmission distance significantly; up to 164ft / 50m for 4K@24 or 115ft / 35m for 4K@60 444, using a single CAT5e/6 cable

COMPATIBILITY

Compatible with various advanced video technologies including 3D, HDR10, and Dolby Vision

AUDIO SUPPORT

Supports a wide range of HDMI audio formats, including LPCM, Dolby Digital/Plus/EX, Dolby True HD, DTS, DTS-EX, DTS-96/24, DTS High Res, DTS-HD Master Audio, and DSD

POWER OVER CABLE (POC)

Features Power Over Cable functionality, allowing power transmission from Receiver to Transmitter, simplifying setup and reducing cable clutter

BG-EXHD-50UWP-W

4K UHD 18GBPS HDMI/MDP WALL PLATE TRANSMITTER/ RECEIVER KIT UP TO 164FT

Introducing the BG-EXHD-50UWP-W 18Gbps CAT 164ft Wall Plate Kit, a cutting-edge solution engineered to enhance your audiovisual experience to new heights. This all-encompassing kit features a sophisticated MDP/HDMI Wall Plate Transmitter paired with a CAT6 to HDMI Receiver, meticulously crafted to deliver unrivaled performance and effortless integration.

Experience seamless connectivity and pristine image quality with the advanced MDP/HDMI Wall Plate Transmitter. Equipped with HDMI and DisplayPort inputs, this transmitter ensures compatibility with a wide range of devices, while its sleek US one-gang enclosure seamlessly blends into any decor.

Extend your viewing experience with the CAT6 to HDMI Receiver, delivering high-definition content to your display device with uncompromising clarity and reliability. With support for resolutions up to 4K/UHD@60Hz 4:4:4 and a transmission distance of up to 164ft / 50m, this receiver offers unparalleled flexibility in installation.

Features

STANDARDS COMPLIANCE

This device adheres to industry standards including HDMI 2.0b, HDCP 2.2, and DisplayPort 1.2a

HIGH-RESOLUTION CAPABILITY

Display video resolutions up to 4K/ UHD@60Hz with a 4:4:4 color sampling ratio

CAT6 OUTPUT

Utilizing CAT6 output extends video transmission distances up to 164ft / 50m for 4K@24 or 115ft / 35m for 4K@60 444 using a single CAT5e/6 cable

AUDIO COMPATIBILITY

HDMI audio formats supported include LPCM, Dolby Digital/Plus/ EX, Dolby TrueHD, DTS, DTS-EX, DTS-96/24, DTS High Res, DTS-HD Master Audio, and DSD

CONVENIENT SIGNAL SELECTION

Input signal selection can be set to automatic or manual mode for convenience

POWER OVER CABLE

Supports Power Over Cable functionality, but only from Receiver to Transmitter

BG-EXH-70WP-W

4K UHD 18GBPS HDMI WALL PLATE TRANSMITTER/RECEIVER KIT UP TO 230FT

Introducing the BG-EXH-70WP-W HDBaseT Wall Plate Kit, featuring a sophisticated HDBaseT Wall-plate Transmitter and an HDBaseT to HDMI Receiver, designed to elevate your AV experience with seamless signal transmission and exceptional performance.

The transmitter boasts HDMI 2.0b compliance and HDCP 2.2 compatibility, ensuring seamless connectivity and support for high-definition content. With support for resolutions up to 4K2K@60Hz (4:4:4), 4K2K@30Hz, and 1080p@120Hz, it delivers stunning visual clarity and fidelity, making it perfect for a wide range of applications.

Check out this item
on our website

Features

STANDARDS COMPLIANT
Supports HDMI 2.0b with a bandwidth of 18Gbps and complies with HDCP 2.2 standards

4K HIGH-RESOLUTION SUPPORT
Accommodates resolutions up to 4K2K@60Hz (4:4:4), 4K2K@30Hz, and 1080p@120Hz

AUDIO CAPABILITY
Capable of transmitting up to 7.1 channels of HD audio

TRANSMISSION TECHNOLOGY
Utilizes HDBaseT™ technology over a single CAT 6/6a/7 cable, extending signals up to 230ft/70m

CONTROL FEATURES
Supports two-way IR and RS-232 communication for enhanced control capabilities

POWER MANAGEMENT
Incorporates POC (Power Over Cable) function, where either the transmitter (TX) or receiver (RX) is powered by a 24V1A power supply, reducing reliance on additional power sources. POC power consumption is less than 10W

BG-EXH-70UWP-W

3X1 HDMI/USB-C/KVM WALL PLATE SWITCHER & HDBASET EXTENDER KIT, 4K UHD 18GBPS – 230FT RANGE

Introducing the BG-EXH-70UWP-W 18Gbps HDBaseT 230ft Wall Plate Kit, an advanced solution for high-definition signal distribution and transmission. Featuring a USB-C/HDMI & KVM Function Wall Plate Transmitter and an HDBaseT to HDMI Receiver, this kit delivers unparalleled performance and versatility for professional AV installations.

Encased in a sleek US one-gang enclosure tailored for Decora-style wall plate openings, the transmitter serves as a 2x1 switcher and HDBaseT transmitter, supporting HDMI and USB-C inputs for seamless integration with a wide range of AV devices. With support for resolutions up to 4K@60Hz 4:4:4, this kit ensures exceptional visual fidelity and clarity. Moreover, the transmitter can be conveniently powered via Power Over Ethernet (POE) from the receiver or other HDBaseT-equipped devices, enhancing flexibility and ease of installation.

Features

STANDARDS COMPLIANCE

Compliant with HDMI 2.0b, HDCP 2.2, and DisplayPort 1.2a (Adapter required for Display Port)

VIDEO RESOLUTIONS

Capable of displaying up to 4K@60Hz 4:4:4

TRANSMISSION DISTANCE

Extends up to 230ft / 70m for 1080P or 131ft / 40m for 4K

HDR SUPPORT

Supports HDR10 and HDR10+ formats

AUDIO FORMATS

Includes Dolby Atmos, TrueHD, Digital+, Digital, DTS X, HD Master Audio, HD High-Resolution Audio, 5.1; PCM 2-8Ch

POWER OVER ETHERNET

Supports POE (Receiver to Transmitter)

BG-EXHD-70UWP-W

3X1 HDMI/MDP/KVM WALL PLATE SWITCHER & HDBASET EXTENDER KIT, 4K UHD 18GBPS – 230FT RANGE

Introducing the BG-EXHD-70UWP-W, an innovative 18Gbps HDBaseT Wall Plate Kit designed for seamless connectivity and high-performance transmission in professional AV setups. This kit includes a Wall Plate Transmitter and an HDBaseT to HDMI Receiver, offering unparalleled versatility and reliability in signal distribution.

Designed to fit seamlessly into Decora-style wall plate openings, this kit features a sleek US one-gang enclosure. The Wall Plate Transmitter serves as a 2x1 switcher and HDBaseT transmitter, supporting HDMI and DisplayPort (DP) inputs while also integrating USB 2.0 KVM functionality.

HDBASET OUTPUT

Extends video transmission distance up to 230ft / 70m for 1080P or 131ft / 40m for 4K via a single CAT6/6a/7 cable

HDR SUPPORT

Supports HDR10 and HDR10+ formats

AUDIO FORMATS

Supported audio formats include Dolby Atmos, TrueHD, Digital+, DTS X, HD Master Audio, HD High-Resolution Audio, and 5.1; PCM 2-8Ch

POE FUNCTIONALITY

Supports POE function (only from Receiver to Transmitter)

BG-EXH-70UCWP-W

3X1 HDMI/USB-C WALL PLATE SWITCHER & HDBASET EXTENDER KIT, 4K UHD 18GBPS WITH RS232 – 230FT RANGE

Introducing the BG-EXH-70UCWP-W 18Gbps HDBaseT 230ft Wall Plate Kit, a comprehensive solution for advanced signal transmission and distribution. This kit features a USB-C/HDMI Wall Plate Transmitter and an HDBaseT to HDMI Receiver, delivering exceptional performance and versatility for professional AV installations. Enclosed within a sleek US one-gang enclosure compatible with Decora-style wall plate openings, the transmitter functions as a 2x1 switcher and HDBaseT transmitter, supporting HDMI and USB-C inputs.

With support for video resolutions up to 4K2K@50/60Hz 4:4:4 and bidirectional RS-232 pass-through functionality, this kit ensures seamless integration and reliable control signal transmission. Furthermore, the transmitter can be remotely powered via Power Over Ethernet (POE) from the receiver or other HDBaseT-equipped devices, enhancing convenience and flexibility in installation.

Features

SUPPORTS HIGH RESOLUTIONS

Up to 4K@120Hz YUV 4:4:4 with DSC function, extending up to 40m (132 feet)

STANDARDS COMPLIANT

Compatible with HDCP 2.3, HDCP 2.2, and HDCP 1.4

HIGH DYNAMIC RANGE VIDEO

Allows for the vivid display of HDR content

EDID AND HDCP BYPASS

Streamlines connectivity by bypassing EDID and HDCP protocols when necessary

DIGITAL STREAM CONVERSION (DSC)

Enables seamless conversion of digital streams, ensuring compatibility with DSC 1.2a standards

COMPRESSED AUDIO FORMATS

Supports various compressed audio formats, including DTS, Dolby Digital, DTS-HD Master Audio™, and Dolby TrueHD

BG-EXHD-70UCWP-W

3X1 HDMI/MDP WALL PLATE SWITCHER & HDBASET EXTENDER KIT, 4K UHD 18GBPS WITH RS232 – 230FT RANGE

Introducing the BG-EXHD-70UCWP-W 18Gbps HDBaseT 230ft Wall Plate Kit, complete with an MDP/HDMI Wall Plate Transmitter and an HDBaseT to HDMI Receiver. Designed for seamless integration into your AV setup, this kit offers advanced connectivity and transmission capabilities while maintaining a sleek aesthetic with its Decora-style wall plate design.

The wall plate serves as both a 2x1 switcher and an HDBaseT transmitter, accommodating HDMI and DisplayPort (DP) inputs. Supporting video resolutions of up to 4K2K@50/60Hz 4:4:4, ensures stunning clarity and detail in your visuals. Additionally, bidirectional RS-232 pass-through allows for convenient control signal transmission up to 131ft / 40m.

Features

STANDARDS COMPLIANCE

This device is compliant with HDMI 2.0b, HDCP 2.2, and DisplayPort 1.2a standards

EXTENDED VIDEO TRANSMISSION

The HDBaseT output extends video transmission distances. Achieve up to 230ft / 70m for 1080P@60 or 131ft / 40m for 4K@60 using a single CAT6/6a/7 cable

ENHANCED VISUAL EXPERIENCE

Supports 3D, HDR10, and Dolby Vision for an immersive viewing experience

AUDIO FORMAT SUPPORT

Enjoy a variety of audio formats including LPCM, Dolby Digital/Plus/EX, Dolby TrueHD, DTS, DTS-EX, DTS-96/24, DTS High Res, DTS-HD Master Audio, and DSD through HDMI

INPUT COMPATIBILITY

Offers support for both HDMI and MDP inputs, ensuring versatility in connectivity

POWER OVER ETHERNET

POE function is supported, transmitting power from Receiver to Transmitter for simplified setup and operation. (Note: POE function is only supported from Receiver to Transmitter)

Signal Extenders

Wireless Extenders

BZBGEAR HDMI WIRELESS EXTENDERS

BZBGEAR HDMI wireless extenders provide a seamless solution for transmitting high-quality audio and video signals from an HDMI source to a display over a wireless connection. Designed with innovation and durability in mind, these extenders deliver exceptional performance and reliability for both professional and personal applications.

Equipped with advanced wireless interference protection, they ensure stable and uninterrupted signal transmission by effectively minimizing disruptions caused by other wireless devices. Loop-out ports allow for convenient local monitoring, enabling real-time observation of the transmitted signal without additional equipment. The extenders feature durable metal housing and versatile mounting options, ensuring long-term reliability and adaptability in various environments.

BG-AIR4KAST-PRO

4K60 UHD WIRELESS HDMI SENDER/RECEIVER EXTENDER KIT WITH ULTRA-LOW LATENCY

The BG-Air4Kast-Pro 4K60 Wireless HDMI Transmitter and Receiver System delivers professional-grade wireless video and audio transmission with virtually zero latency. Designed for high-performance environments, it supports 4K60 HDR10 video, 7.1-channel audio, and Dolby Atmos/DTS passthrough, providing a visually lossless and immersive audiovisual experience without the constraints of cables. With intelligent auto-pairing, USB KVM functionality, and IR control, the BG-Air4Kast-Pro makes extending HDMI signals across rooms seamless and reliable.

Perfect for business presentations, home theaters, healthcare facilities, or gaming setups, the system ensures stable, secure wireless operation even in crowded Wi-Fi environments. Its compact design, simple installation, and professional-grade features make it a versatile solution for both residential and commercial applications.

The BG-Air4Kast-Pro leverages advanced DSP codec technology alongside a proprietary low-latency wireless protocol to provide end-to-end latency as low as 16ms at 60fps, ensuring smooth, real-time transmission of high-resolution 4K60 HDR content. Built on a professional-grade 802.11ac MIMO 2T2R Wi-Fi platform, the system intelligently manages interference and channel selection to maintain stable video and audio streams, even in congested RF environments.

Splitters

HDMI Splitters

BZBGEAR HDMI SPLITTERS

BZBGEAR HDMI splitters are designed to distribute a single HDMI source to multiple displays, ideal for large-scale setups like sports bars and auditoriums. They simplify installations by centralizing wiring, reducing clutter, and providing a single connection point for all displays. These splitters support high resolutions up to 4K@60Hz, ensuring top-tier video performance, and are HDMI 2.0a and HDCP 2.2 compliant for seamless compatibility. Advanced EDID management ensures reliable operation, while some models feature audio de-embedding with analog and digital audio extraction for flexible sound management.

BZBGEAR's splitters can distribute a single HDMI source to up to 24 displays, making them perfect for large-scale AV systems that require reliable, high-quality signal distribution and centralized control.

BG-DA-1X2AS

1X2 4K UHD HDMI SPLITTER WITH DOWNSCALER WITH DIGITAL AND ANALOG AUDIO OUTPUT

The BG-DA-1X2AS is a high-performance HDMI splitter designed for professional applications. It offers the ability to split one 4K@60Hz input signal into two lossless copies, making it perfect for sharing a single device with two displays. The splitter supports resolutions up to 4K@60Hz 4:4:4 and HDCP 2.2, providing exceptional picture quality and stability.

One of the key features of the BG-DA-1X2AS is its selectable 4K to 1080P downscaler for each output, which allows for compatibility with legacy displays. The splitter also features EDID settings, which can be easily configured to COPY or AUTO modes, to help ensure more stable and seamless HDMI connections in different display situations.

In addition to its video capabilities, the BG-DA-1X2AS also provides audio extraction via optical and 3.5mm stereo outputs, enabling it to send signals to external audio systems. The splitter supports a variety of audio formats, including LPCM, Dolby Digital/Plus/EX, Dolby True HD, DTS, DTS-EX, DTS-96/24, DTS High Res, DTS-HD Master Audio, and DSD, making it an ideal choice for professional audio and video installations.

BG-DA-1X4AS

1X4 4K UHD HDMI SPLITTER WITH DOWNSCALER WITH DIGITAL AND ANALOG AUDIO OUTPUT

The BG-DA-1X4AS is a high-performance HDMI splitter designed for professional applications. It offers the ability to split one 4K@60Hz input signal into four lossless copies, making it perfect for sharing a single device with four displays. The splitter supports resolutions up to 4K@60Hz 4:4:4 and HDCP 2.2, providing exceptional picture quality and stability.

One of the key features of the BG-DA-1X4AS is its selectable 4K to 1080P downscaler for each output, which allows for compatibility with legacy displays. The splitter also features EDID settings, which can be easily configured to COPY or AUTO modes, to help ensure more stable and seamless HDMI connections in different display situations.

In addition to its video capabilities, the BG-DA-1X4AS also provides audio extraction via optical and 3.5mm stereo outputs, enabling it to send signals to external audio systems. The splitter supports a variety of audio formats, including LPCM, Dolby Digital/Plus/EX, Dolby True HD, DTS, DTS-EX, DTS-96/24, DTS High Res, DTS-HD Master Audio, and DSD, making it an ideal choice for professional audio and video installations.

BG-8K-DA18

1X8 8K UHD HDMI 2.1 48GBPS SPLITTER
WITH AUTO DOWNSCALING/AUDIO DE-EMBEDDING
(8K60/4K120 AND VRR/ALLM/QMS/QFT/SBTM SUPPORT)

The BG-8K-DA18 is a high-performance 1x8 HDMI splitter designed to distribute a single HDMI source to up to eight displays simultaneously with uncompromised video and audio quality. Supporting resolutions up to 8K@60Hz (4:2:0 12-bit) and 4K@120Hz (4:4:4 12-bit), this splitter is fully compliant with HDMI 2.1 and HDCP 2.3 standards, delivering ultra-high-definition content with rich color depth and dynamic range.

Engineered for next-generation devices like Xbox Series X and PlayStation 5, the BG-8K-DA18 offers seamless playback at 4K@120Hz, making it ideal for gaming, home theater, and professional AV setups. With support for 48Gbps FRL, VRR, ALLM, QMS, and QFT, it ensures fluid motion and low latency. Advanced features such as EDID management, HDR-to-SDR conversion, and auto downscaling per output simplify integration across mixed-resolution displays.

Features

ULTRA-HIGH RESOLUTIONS

Supports up to 8K@60Hz (4:2:0, 12-bit) and 4K@120Hz (4:4:4, 12-bit) per HDMI 2.1 specifications

GAMING AND MOTION ENHANCEMENTS

Supports VRR, ALLM, QMS, QFT, and SBTM for smoother visuals and reduced latency

HDR FORMAT COMPATIBILITY

Pass-through support for HDR, HDR10, HDR10+, Dolby Vision, and HLG

ADVANCED AUDIO SUPPORT

Compatible with LPCM 7.1CH, Dolby TrueHD, Dolby Atmos, and DTS-HD Master Audio formats

PER-PORT DOWNSCALING

Automatically downscales resolution on each output to match connected displays

HDR TO SDR CONVERSION

Automatically converts HDR content to SDR on each output for non-HDR displays

BG-UHD-DA2X8

2X8 4K UHD HDMI SPLITTER/DISTRIBUTION AMPLIFIER WITH CEC SUPPORT

The BG-UHD-DA2X8 is an 8-way 4K HDMI splitter with two inputs. With a maximum resolution of 4K@60Hz, this unit makes it easy for users to share two 4K sources with up to 8 displays. This device is a simple, cost-effective solution for restaurants, bars, and retail spaces.

The BG-UHD-DA2X8 supports resolutions up to 4K@60Hz (4:4:4). This device is also compliant with HDCP 2.2 and HDMI 2.0. With the automatic 4K to 1080P downscaling feature, legacy displays can easily be integrated with no extra setup required. The integrated equalizer ensures stable signal is sent to all outputs, while the EDID management provides stable HDMI connections to all displays.

Audio Extraction is provided via the stereo RCA and Toslink connections, allowing the BG-UHD-DA2X8 to be connected to an external audio system. CEC control allows the splitter to turn compatible displays on, off, and adjust volume levels for easy centralized control.

4K SUPPORT

Supports resolutions up to 4K@60Hz with 4:4:4 Chroma sampling

VIDEO SCALING

Supports 4K to 1080p down-scaling

CUSTOMIZABLE EDID

Eliminates HDMI connection issues

VOLUME CONTROL

Easily adjust audio output signal levels

DUAL INPUT

Easily toggle between sources

AUDIO DE-EMBEDDING

Features RCA Stereo and Toslink outputs

BG-UHD-DA1X16

1X16 4K UHD HDMI SPLITTER/DISTRIBUTION AMPLIFIER WITH DOWNSCALING AND AOC CABLE SUPPORT

The BG-UHD-DA1X16 is a sixteen port 4K HDMI splitter. Providing connectivity for up to sixteen 4K displays, this device is perfect for large restaurants, bars, and retail spaces with multiple displays sharing a common video feed.

The BG-UHD-DA1X16 supports a maximum input resolution of 4K@60Hz 4:4:4. It is HDCP 2.2 compliant and supports enhanced video formats including HDR 10 and Dolby Vision. With active optical cable (AOC) HDMI support, this device can be used with long-distance AOC HDMI cable runs of up to 165 feet.

The auto-downscaling function of the BG-UHD-DA1X16 provides compatibility with legacy 1080P displays. This helps eliminate compatibility issues and helps the device play nice with lower resolution screens. The device is also HDCP 2.2 compliant. When used with compatible displays, the HDMI CEC control function of the BG-UHD-DA1X16 can control power on and off for connected displays.

Splitters

Long-Range HDMI Splitters

BZBGEAR LONG RANGE HDMI SPLITTERS

BZBGEAR long range HDMI splitters are engineered to distribute a single HDMI source to multiple distant displays over category cable, making them ideal for large venues such as sports bars, auditoriums, and other professional settings. These splitters eliminate the need for multiple source devices, simplifying installation and increasing system reliability.

By centralizing the wiring, they reduce clutter and make troubleshooting easier, as all displays are connected through a single point. BZBGEAR's long-range HDMI splitters come with HDMI extenders, allowing for transmission beyond the typical 50-foot limit of standard HDMI cables. Other features may include support for Full HD and 4K UHD resolutions (up to 4K@60fps), HDMI 2.0a and HDCP 2.2 compliance, and HDBaseT compatibility.

BG-UDAIC-E14

1X4 4K UHD HDMI SPLITTER/DISTRIBUTION AMPLIFIER KIT WITH 4 RECEIVERS AND IR/RS-232/AUDIO DE-EMBEDDING UP TO 230FT OVER CATEGORY CABLE

The BG-UDAIC-E14 by BZBGEAR is a high-performance extender/splitter kit that enables users to distribute one HDMI input to up to four extender outputs and extend signals up to 70 meters (230 feet) with CAT 6/6A/7 network cables. This solution is ideal for transmitting audio and video signals from a source located at a remote distance, providing reliable and zero-latency connectivity without compromising on quality. The BG-UDAIC-E14 supports resolutions up to 4K@60Hz, delivering stunning visuals with uncompromising clarity and precision. The extender/splitter kit offers zero-latency transmission, ensuring that audio and video sync perfectly without any noticeable delay.

Moreover, the receivers can output digital audio from the display (ARC) or from the source device via the S/PDIF port. HDMI loop out is also available. The extender/splitter kit offers bi-directional IR passthrough via IR blaster and IR receivers, enabling users to control equipment regardless of distances or obstacles. EDID passthrough and manual EDID setup with a dip-switches is available ensuring correct image resolutions. RS-232 passthrough is also supported.

BG-UDA-E14

1X4 4K UHD HDMI HDBASET SPLITTER/DISTRIBUTION AMPLIFIER KIT WITH 4 RECEIVERS AND IR/RS-232/AUDIO DE-EMBEDDING UP TO 390FT OVER CATEGORY CABLE

The BG-UDA-E14 is a 1x4 4K HDBaseT splitter/extender kit. Supporting resolutions up to 4K@60Hz, users can extend HDMI sources over category 6 cabling at distances up to 390 feet, or up to 490 feet at 1080P@60Hz with the included HDBaseT extenders. With the ability to connect to one local and four remote displays, this unit is ideally suited for use in restaurants, sports bars, retail spaces, and auditoriums.

The BG-UDA-E14 supports a maximum resolution of 4K@60Hz 4:4:4. Compliant with HDMI 2.0b, HDCP 2.2, and HDCP 1.x, the transmitter offers EDID management to eliminate HDMI connection problems. The transmitter is equipped with an HDMI loop out connection for connection to a local display. One digital coax and one analog audio phoenix connector provide audio extraction from the source for connection to an external sound system.

BG-UDA-E18

1X8 4K UHD HDMI HDBASET SPLITTER/DISTRIBUTION AMPLIFIER KIT WITH 8 RECEIVERS AND IR/RS-232/AUDIO DE-EMBEDDING UP TO 390FT OVER CATEGORY CABLE

The BG-UDA-E18 is a 1x8 4K HDBaseT splitter/extender kit. Supporting resolutions up to 4K@60Hz, users can extend HDMI sources over category 6 cabling at distances up to 390 feet, or up to 490 feet at 1080P@60Hz with the included HDBaseT extenders. With the ability to connect to one local and eight remote displays, this unit is ideally suited for use in restaurants, sports bars, retail spaces, and auditoriums.

Each receiver features Power over Ethernet, eliminating the need for a power supply at the display-end and enabling a clean installation. Each receiver has a 3.5mm stereo output for connection to a local sound source. The slim design of the receivers helps them fit behind the displays, and each one is equipped with RS-232 passthrough and bi-directional IR passthrough for integration with control systems.

Splitters

SDI Splitters

BZBGEAR SDI SPLITTERS

BZBGEAR SDI Splitters are high-performance devices designed to distribute a single SDI video signal to multiple outputs, ensuring seamless transmission to monitors, recorders, or other AV equipment without signal degradation. Essential in professional video production environments such as live broadcasting, event production, and studio operations, these splitters provide reliable, high-quality signal distribution.

Engineered to support 12G-SDI for 4K UHD content, BZBGEAR SDI splitters maintain superior signal integrity, even over long distances, making them ideal for demanding video applications. Available in both rack-mounted and portable formats, they offer versatile solutions to meet the needs of various production setups.

Advanced models feature automatic failover functionality, providing redundancy to ensure uninterrupted signal distribution, even in the event of a failure. This added reliability makes BZBGEAR SDI splitters a trusted choice for ensuring consistent, high-quality video output in professional settings.

BG-DA-12GS1X2

4K UHD 12G-SDI 1X2 SPLITTER/DISTRIBUTION AMPLIFIER

The BG-DA-12GS1X2 is a 1x2 12G-SDI splitter. This device can split an SD, HD, 3G, 6G, or 12G-SDI video source to two SDI outputs simultaneously. For any situation where range, quality, consistency, and reliability are all factors, this unit is the correct choice. Whether you need to connect additional displays for video feed monitoring, distribute a 4K signal over a long distance, or daisy chain and cascade multiple units to build a large scale video distribution solution - the BG-DA-12GS1X2 will help you get the job done.

Each output from the BG-DA-12GS1X2 is buffered independently and re-clocked eliminating signal disruption and making it possible to extend signal transmission to greater distances. With automatic input cable equalization, 12G-SDI signal can be transmitted up to 70m (230 ft), 6G up to 100m (330 ft), and up to 180m (594 ft) for 3G connections.

Features

MULTIPLE OUTPUTS

Split a single SDI source up to 2 different SDI displays or devices

BUFFERED AND RE-CLOCKED OUTPUTS

Eliminate jitter and increase transmission distance

SPLIT AND AMPLIFY

Split and extend a 4K signal up to 230ft (12G)

LED INDICATORS

Signal lock and video rate at a glance

INTERLOCKED POWER SUPPLY

Ensures power stays connected

RUGGED DESIGN

Durable metal structure built to withstand years of operation

BG-DA-12GS1X4

4K UHD 12G-SDI 1X4 SPLITTER/DISTRIBUTION AMPLIFIER

The BG-DA-12GS1X4 is a 1x4 12G-SDI splitter and distribution amplifier. This device can split an SD, HD, 3G, 6G, or 12G-SDI video source up to four SDI outputs simultaneously. For any situation where range, quality, consistency, and reliability are all factors, this unit is the correct choice. Whether you need to connect additional displays for video feed monitoring, distribute a 4K signal over a long distance, or daisy chain and cascade multiple units to build a large scale video distribution solution - the BG-DA-12GS1X4 will help you get the job done.

The device has a maximum SDI bandwidth of 11.88 Gbps to support high quality video transmission with low latency when splitting video to multiple outputs. Installers can also utilize the device's LED indicators that show the status of signal lock and current video rate to reduce the amount of time system configuration is needed.

Video Converters

BZBGear VIDEO CONVERTERS

A BZBGear converter is a highly versatile device that seamlessly transforms signals from one format to another, ensuring flawless compatibility between different video, audio, or data systems. These essential tools bridge the gap between legacy and modern equipment, making them indispensable for professional AV setups, broadcasting environments, and home theater systems. Designed with user convenience in mind, converters offer plug-and-play functionality for effortless operation. Simply connect the input and output cables, power the device, and enjoy seamless signal conversion—no technical expertise or complex configurations are required.

BZBGear provides a range of converters that cater to various needs, including resolution options from HD to impressive 4K, while complying with industry standards. This ensures broad compatibility and exceptional reliability across various systems, delivering high-quality results for any application.

BG-4KSH

4K UHD 12G-SDI TO HDMI 2.0 CONVERTER WITH AUDIO EXTRACTION (12G/6G/3G/HD-SDI SUPPORT)

The BZBGEAR BG-4KSH is a 12G/6G/3G/HD-SDI to HDMI 2.0 converter with audio extraction. The SDI signal is digitally converted into HDMI, guaranteeing lossless conversion for both audio and video.

Featuring up to 8 channels of audio, the BG-4KSH is compatible with 7.1 or 5.1 surround sound systems. The 3.5mm analog stereo output, SDI input, SDI loop-out, and HDMI output provides users convenient flexibility. With these robust features, the BG-4KSH can take SDI signals from professional or commercial AV equipment and effortlessly convert it to HDMI without compression for use of popular consumer-grade video interfaces.

- 7.1 or 5.1 channel surround
- Convert signal from professional/commercial grade AV equipment to a more common interface
- Digital conversion of signal ensures lossless transformation for audio and video

BG-4KHS

4K UHD HDMI 2.0 TO 12G-SDI CONVERTER WITH HDMI LOOP-OUT AND AUDIO EMBEDDER

The BG-4KHS HDMI to SDI converter seamlessly converts an HDMI 2.0 signal to 12G/6G/3G/HD/SD-SDI in real time. The conversion between HDMI 2.0 and SDI is purely digital. When converting HDMI 2.0 to SDI, there is no loss or weakness of signal quality. Additionally, with up to 8 channels of audio support, 7.1 channel audio and 5.1 channel audio becomes available. With the use of BG-4KHS, users can expand their access to professional SDI compatible equipment!

The BG-4KHS provides two low jitter SDI outputs and one HDMI loop-out. To provide a more flexible application, the BG-4KHS is also equipped with a high quality analog stereo embedder. Analog audio supports 2ch and HDMI surround sound supports up to 7.1ch. Furthermore, this HDMI to SDI converter supports resolutions up to 4K@60Hz. The lowest resolution BG-4KHS supports is 720p@50Hz.

For additional application support, the BG-4KHS HDMI to SDI converter is wall mountable. One mounting rack set is included with the purchase of this device. The package also includes a 5V power adapter to ensure users have everything they need right out of the box.

BG-4KBHS

12G/6G/3G/HD-SDI & HDMI 2.0 BI-DIRECTIONAL CONVERTER WITH AUDIO EMBEDDING AND EXTRACTION

The BG-4KBHS is a professional-grade 12G/6G/3G/HD-SDI and HDMI 2.0 bi-directional converter featuring integrated audio embedding and extraction. Designed for uncompromising signal quality and reliability, this converter enables seamless real-time conversion between HDMI and SDI formats without latency or signal loss. Supporting full digital conversion, it maintains uncompressed, lossless video and audio for pristine broadcast performance.

With support for up to 8 audio channels, including 7.1 and 5.1 surround sound, and a high-quality analog stereo embedder and extractor, the BG-4KBHS bridges professional SDI systems with consumer HDMI devices in a single, versatile solution. Its low-jitter SDI output, automatic signal detection, and broad video format support up to 4K@60Hz make it a reliable tool for broadcast studios, post-production, and AV integration environments demanding flexible and high-fidelity signal management.

HIGH BIT RATE SUPPORT

Handles SDI bit rates of 270 Mbps up to 11.88 Gbps, including fractional rates for broadcast compatibility

AUDIO CHANNEL SUPPORT

Supports up to 8 audio channels, including 7.1 and 5.1 surround sound

ANALOG STEREO EMBEDDER & EXTRACTOR

Provides high-quality analog audio embedding and extraction for flexible audio routing

REAL-TIME BI-DIRECTIONAL CONVERSION

Converts HDMI to SDI and SDI to HDMI without latency or quality loss

AUTO SDI DETECTION

Automatically detects and switches between 12G, 6G, 3G, and HD-SDI signals

BG-4KBHS-PRO

HDMI 2.0 & 12G/6G/3G/HD-SDI CROSS CONVERTER AND SCALER WITH 3.5" LCD DISPLAY/BUILT-IN TEST PATTERNS/AUDIO EMBEDDER/DE-EMBEDDER

The BG-4KBHS-PRO is a professional-grade HDMI 2.0 and 12G/6G/3G/HD-SDI cross-converter and scaler built for high-performance signal conversion, monitoring, and analysis. Designed for broadcast, production, and professional AV applications, it supports up to 12G-SDI 4K60 and HDMI 2.0 4K60 video formats for seamless interoperability across a wide range of devices. Featuring an integrated 3.5" LCD display and intuitive push-button controls, it enables real-time signal monitoring and effortless on-screen configuration of video, audio, and output parameters.

Beyond simple conversion, the BG-4KBHS-PRO is a comprehensive diagnostic and calibration tool. Its advanced waveform and audio metering functions, combined with built-in test patterns and flexible scaling capabilities, make it an indispensable device for field engineers, content creators, and AV technicians who demand precision and reliability in every workflow.

For professional video analysis, the processor provides YCbCr waveform display, RGB monitoring, and audio level metering, viewable directly via the OSD or LCD interface. Engineers can access a suite of built-in test patterns to evaluate signal integrity, perform color calibration, or verify display alignment.

Features

DUAL-FORMAT CONVERSION

Supports simultaneous HDMI ↔ SDI cross-conversion with passthrough options

4K60 ULTRA HD SUPPORT

Handles HDMI 2.0 and 12G-SDI signals up to 4K2K @ 60Hz for superior clarity

INTEGRATED LCD DISPLAY

3.5" screen provides real-time video preview and on-screen control interface

ADVANCED VIDEO ANALYSIS

Features YCbCr waveform, RGB monitoring, and audio level meters with OSD overlay

BUILT-IN TEST PATTERNS

Enables quick calibration and signal verification in professional environments

AUDIO EMBEDDING & EXTRACTION

S/PDIF I/O allows precise audio signal routing between HDMI and SDI

Video Switchers

Basic Switchers

BZBGEAR BASIC SWITCHERS

BZBGEAR's Basic HDMI Switchers provide a straightforward solution for managing multiple HDMI sources on a single display, combining simplicity with advanced functionality. Designed for plug-and-play use, these switchers come in 2x1 and 4x1 models and support high-resolution formats up to 8K60 and 4K120Hz, making them a versatile choice for both casual users and professionals. With intuitive one-button switching and smart auto-switching, they streamline source management while ensuring seamless transitions between devices.

Beyond their ease of use, BZBGEAR Basic Switchers deliver features often reserved for professional-grade gear. Flexible EDID management, audio de-embedding for formats like LPCM, Dolby, and DTS, plus gaming-friendly enhancements such as VRR and ALLM, ensure compatibility across a wide range of applications. Whether for home entertainment, gaming setups, commercial environments, or professional AV systems, these compact devices offer reliability, flexibility, and powerful performance in an accessible, user-friendly package.

BG-8K-HS21AR

2X1 8K UHD HDMI 2.1 SWITCHER WITH DIGITAL/ANALOG AUDIO DE-EMBEDDING/EDID/RS-232 (8K60/4K120HZ 4:4:4 VRR/ALLM SUPPORT)

The BG-8K-HS21AR is a high-performance 2x1 HDMI switcher designed to seamlessly switch between two 8K HDMI sources and deliver crystal-clear video to a single 8K display. Supporting resolutions up to 8K@60Hz 4:2:0 12-bit, 8K@30Hz 4:4:4 12-bit, and 4K@120Hz 4:4:4 12-bit, this device ensures stunning visual quality in compliance with the HDMI 2.1 and HDCP 2.3 standards. Full compatibility with HDR10, HDR10+, Dolby Vision, and ALLM/VRR pass-through guarantees exceptional color performance and dynamic range for a premium viewing experience.

Beyond video switching, the BG-8K-HS21AR features digital and analog audio de-embedding, offering analog audio output with gain control. A built-in HDMI signal generator simplifies troubleshooting and diagnostics, while advanced EDID management and integrated signal equalization ensure stable and reliable signal transmission. Users can operate the device through front panel buttons, an IR remote, or RS-232 API commands, with auto or manual switching modes for added flexibility.

4X1 8K UHD HDMI 2.1 SWITCHER WITH DIGITAL/ANALOG AUDIO DE-EMBEDDING/EDID/RS-232 (8K60/4K120HZ 4:4:4 VRR/ALLM SUPPORT)

The BG-8K-HS41AR is a high-performance 4x1 HDMI switcher designed to deliver seamless switching between up to four 8K HDMI source devices and a single 8K display. Supporting video resolutions up to 8K@60Hz (4:2:0, 12-bit), 8K@30Hz (4:4:4, 12-bit), and 4K@120Hz (4:4:4, 12-bit) as specified in HDMI 2.1, this switcher ensures crystal-clear image quality with HDR formats including HDR10, HDR10+, Dolby Vision, and pass-through for ALLM/VRR. It is fully HDCP 2.3 compliant and supports advanced HDMI audio formats such as Dolby Atmos, DTS-HD Master Audio, and DSD, ensuring compatibility with the latest AV equipment.

Engineered for versatility and ease of use, the BG-8K-HS41AR offers a built-in HDMI signal generator for quick troubleshooting and supports digital and analog audio de-embedding, with analog audio output featuring adjustable gain control. Advanced EDID management is accessible through a 4-pin DIP switch, while control options include front panel buttons, IR remote, and RS-232 API commands.

Video Switchers

Matrix Switchers

BZBGEAR MATRIX SWITCHERS

BZBGEAR 4K and 8K matrix switchers serve as centralized hubs that seamlessly route video, audio, and IR signals between multiple sources and displays, making them ideal for commercial settings like sports bars, retail spaces, and large homes or churches. These versatile matrix switchers offer an intuitive user experience through the BG-SWITCH-CONTROL app, which features a simple drag-and-drop interface for easy source switching. Designed for effortless integration, BZBGEAR matrix switchers include web interfaces, RS-232 ports, and Crestron control driver support, ensuring broad compatibility with both new and existing AV systems.

Equipped with HDMI input and output ports, audio embedding/extraction capabilities, LAN ports for network control, and advanced EDID dip switches, BZBGEAR matrix switchers guarantee smooth video and audio compatibility across various displays. The inclusion of IR ports further enhances control, while the overall design emphasizes flexibility and user-friendliness. Whether for home theaters or commercial environments, BZBGEAR's matrix switchers offer a professional-grade, easy-to-use solution for managing sophisticated AV setups.

**2X2 8K UHD HDMI 2.1 MATRIX SWITCHER
WITH AUTO DOWNSCALING/AUDIO DE-EMBEDDING
(8K60/4K120 AND VRR/FVA/ALLM SUPPORT)**

The 2x2 8K 60Hz HDMI matrix switcher is a high-performance device that allows you to switch between two HDMI input sources and send the output to two separate displays. It supports 8K resolution at 60Hz refresh rate for crystal clear picture quality. Additionally, it features audio de-embedding, allowing you to extract the audio from the HDMI signal and route it to an external audio system. The EDID management function ensures compatibility between the source and display devices by mimicking the EDID of the connected displays. This ensures optimal video and audio performance. This matrix switcher is a ideal for any professional A/V setup, home theater, and conference room.

In addition to 8K resolution at 60Hz, this 2x2 HDMI matrix switcher also supports 4K resolution at 120Hz, making it ideal for the gaming community who require the highest quality video and smooth frame rates for an immersive gaming experience. High refresh rates, such as 120Hz, can make a big difference for fast-paced games, making the image look smoother, and reducing motion blur.

**4X4 8K UHD HDMI 2.1 MATRIX SWITCHER
WITH AUTO DOWNSCALING/AUDIO DE-EMBEDDING
(8K60/4K120 AND VRR/FVA/ALLM SUPPORT)**

With four HDMI 2.1a inputs and four HDMI 2.1a outputs, the BG-8K-44MA 8K HDMI matrix switch allows users to share up to four HDMI sources with up to four displays. Perfect for when you need to change multiple sources to show on various displays or even select just one source to show on all displays with the press of a button. Professional-grade picture and audio quality are achieved with support for 8K resolutions and various high-quality audio formats.

For gamers, the ability to display high-resolution graphics at high frame rates is crucial for a smooth and immersive gaming experience. With support for 4K resolution at 120Hz, the BG-8K-44MA can help ensure that your games are displayed with the highest level of detail and fluidity. This is particularly important for fast-paced games where a high frame rate can make a significant difference in your ability to react to in-game events. The 8K HDMI 4x4 matrix switcher's support for 4K at 120Hz can help you get the most out of your favorite games.

BG-4K-44MA

4X4 4K UHD HDMI 2.0 MATRIX SWITCHER WITH AUDIO DE-EMBEDDING/INDEPENDENT ROUTING AND IR MATRIXING (4K60 - 4:4:4 AND HDR SUPPORT)

With four HDMI 2.0 inputs and four HDMI 2.0 outputs, the BG-4K-44MA 4K HDMI matrix switch allows users to share up to four HDMI sources with up to four displays. Perfect for when you need to change multiple sources to show on various displays or even select just one source to show on all displays with the press of a button. Audio can also be independently routed. Professional-grade picture and audio quality are achieved with support for 4K resolutions and various high-quality audio formats.

The BG-4K-44MA supports high resolutions up to 4K@60Hz 4:4:4 with HDR. With 18 Gbps of uncompressed bandwidth, HDMI signals are routed with no loss of quality. All HDMI ports on this matrix are HDCP 2.2 compliant. This device is also equipped with auto-downscaling on all outputs, ensuring compatibility with legacy displays. The BG-4K-44MA also supports Digital S/PDIF and Balanced audio output formats.

The BG-4K-44MA offers multiple control methods including front panel controls, IR remote control, RS-232, or TCP/IP (Web GUI). The included IR receiver allows the unit to be controlled with the included remote while located out of sight for a clean installation.

The audio can be independently routed

BG-4K-VP44

4X4 4K UHD SEAMLESS HDMI MATRIX SWITCHER/VIDEO WALL PROCESSOR/MULTIVIEWER WITH SCALER/IR/AUDIO/IP AND RS-232

The BG-4K-VP44 is a powerful video processor and supports four HDMI inputs that can be independently routed to HDMI Outputs. This unit can create video walls, act as a multi-viewer and perform matrix functions! The BG-4K-VP44 supports Video Wall configurations of up to 7 different modes with each monitor. It can also display four pictures on the same screen and has multiple split display modes.

With max resolutions up to 4K@60HZ 4:4:4, the BG-4K-VP44 is capable of producing high-quality imagery with pristine detailing and rich color. All HDMI ports on this unit are HDCP 2.2 compliant. This device also supports analog audio extraction, and audio channels can be switched independently.

The BG-4K-VP44 offers multiple control methods including front panel controls, IR remote control, RS-232, or IP control. The included IR receiver allows the unit to be controlled with the included remote while located out of sight for a clean installation.

WITH AUTO DOWNSCALING/AUDIO DE-EMBEDDING
(8K60/4K120 AND VRR/FVA/ALLM SUPPORT)**

With eight HDMI 2.1a inputs and eight HDMI 2.1a outputs, the BG-8K-88MA 8K HDMI matrix switch allows users to share up to eight HDMI sources with up to eight displays. Perfect for when you need to change multiple sources to show on various displays or even select just one source to show on all displays with the press of a button. Professional-grade picture and audio quality are achieved with support for 8K resolutions and various high-quality audio formats.

For gamers, the ability to display high-resolution graphics at high frame rates is crucial for a smooth and immersive gaming experience. With support for 4K resolution at 120Hz, the BG-8K-88MA can help ensure that your games are displayed with the highest level of detail and fluidity. This is particularly important for fast-paced games where a high frame rate can make a significant difference in your ability to react to in-game events. The 8K HDMI 8x8 matrix switcher's support for 4K at 120Hz can help you get the most out of your favorite games.

BG-4K-88MA

8X8 4K UHD HDMI 2.0 MATRIX SWITCHER WITH AUDIO DE-EMBEDDING AND INDEPENDENT ROUTING (4K60 - 4:4:4 AND HDR SUPPORT)

With eight HDMI 2.0 inputs and eight HDMI 2.0 outputs, the BG-4K-88MA 4K HDMI matrix switch allows users to share up to eight HDMI sources with up to eight displays. Perfect for when you need to change multiple sources to show on various displays or even select just one source to show on all displays with the press of a button. Audio can also be independently routed. Professional-grade picture and audio quality are achieved with support for 4K resolutions and various high-quality audio formats.

The BG-4K-88MA supports high resolutions up to 4K@60Hz 4:4:4 with HDR. With 18 Gbps of uncompressed bandwidth, HDMI signals are routed with no loss of quality. All HDMI ports on this matrix are HDCP 2.2 compliant. This device is also equipped with auto-downscaling on all outputs, ensuring compatibility with legacy displays. Additionally, the BG-4K-88MA supports Digital S/PDIF and Balanced audio output formats.

The BG-4K-88MA offers multiple control methods including front panel controls, IR remote control, RS-232, or TCP/IP (Web GUI). The included IR receiver allows the unit to be controlled with the included remote while located out of sight for a clean installation.

BG-4K-1616MA

16X16 4K UHD HDMI 2.0 MATRIX SWITCHER WITH AUDIO DE-EMBEDDING AND INDEPENDENT ROUTING (4K60 - 4:4:4 AND HDR SUPPORT)

The BG-4K-1616MA 4K HDMI matrix switcher is designed to manage up to sixteen HDMI 2.0 inputs and sixteen HDMI 2.0 outputs, enabling the seamless distribution of multiple HDMI sources to various displays. Whether you need to switch between multiple sources or display a single source on all screens simultaneously, this matrix switcher offers the flexibility and control you need. Audio can also be independently routed. Experience professional-grade picture and audio quality with support for 4K resolutions and a wide range of high-quality audio formats.

The BG-4K-1616MA supports ultra-high resolutions up to 4K@60Hz 4:4:4 with HDR. With 18 Gbps of uncompressed bandwidth, HDMI signals are routed without any loss of quality. All HDMI ports on this matrix switcher are HDCP 2.2 compliant, ensuring compatibility with modern content protection standards. It also features auto-downscaling on all outputs to ensure compatibility with older displays. Furthermore, the BG-4K-1616MA supports Digital S/PDIF and Balanced audio output formats for versatile audio integration.

Long-Range Matrix Kits

BZBGEAR LONG RANGE MATRIX KITS

Long-range HDMI matrix kits centralize video source and display management, transmitting HDMI signals over category cables covering hundreds of feet in range. Ideal for commercial spaces and large homes, these kits simplify complex setups by allowing easy control via front buttons, remote, or third-party systems. With support for up to 4K resolution and built-in EDID management, they deliver crisp, clear video and enhance reliability by preventing issues like flickering and distortion.

Features like auto-scaling ensure compatibility with both modern and legacy devices, while audio de-embedding enables the extraction of audio for external systems. Some models also support HDBaseT for extended HDMI signal transmission over longer distances, offering an all-in-one solution for high-quality video and audio distribution.

BG-UM44-150L-KIT

4X4 4K UHD 18GBPS HDMI MATRIX SWITCHER OVER HDBASET WITH BI-DIRECTIONAL IR/ADVANCE EDID AND DOWNSCALING

Introducing BG-UM44-150L-KIT HDMI Matrix Switcher and Extender - a powerful device that lets you easily connect up to four HDMI sources to an eight displays! With four HDMI outputs mirrored to four HDBaseT outputs, the extender allows you to transmit video signals over longer distances than a standard HDMI cable. For instance, with 1080p resolution, the signal can travel up to 492ft / 150m, and 394ft / 120m at 4K, giving you plenty of flexibility when it comes to your setup.

This matrix is packed with features that ensure an exceptional viewing experience. It supports a maximum resolution of 4K@60Hz (YUV 4:4:4) on all HDMI and HDBaseT ports and has a maximum bandwidth of 18Gbps, guaranteeing a pure signal transfer for maximum image quality. The device also utilizes HDMI 2.0b and HDCP 2.2 / HDCP 1.x compliant. The device's HDMI audio pass-through capability enables you to handle high-quality sound up to 7.1 CH HD audio. With support for various audio codecs, including LPCM, Dolby TrueHD, and DTS-HD Master Audio, you can rest assured that your audio will be as crisp and clear as your video.

BG-UM44-100M-KIT

4X4 4K UHD HDMI/AUDIO MATRIX SWITCHER OVER HDBASET WITH 2-WAY IR/ARC/ETHERNET/IP AND RS-232 CONTROL

The BG-UM44-100M-KIT is a four input 4K HDMI matrix with four HDBaseT outputs. With Ethernet passthrough for all receivers, bi-directional IR passthrough, and full audio matrix functionality, this powerful switcher provides system-wide routing, control, and management from a single centralized unit.

HDBaseT technology allows an uncompressed HDMI signal to be transmitted over a category 6 cable at distances up to 100 meters (328 feet). When combined with the four mirrored HDMI outputs, this allows the BG-UM44-100M-KIT to send 4K@60Hz 4:4:4 video to eight displays.

The BG-UM44-100M-KIT supports resolutions up to 4K@60Hz 4:4:4. The HDMI 2.0 ports are HDCP 2.2 compliant and transmit video at speeds up to 18Gbps while supporting Dolby Vision, HDR10+, and HLG formats. Each output performs 4K to 1080p downscaling and supports ARC (Audio Return Channel).

Presentation Switchers

BZBGEAR PRESENTATION SWITCHERS

BZBGEAR Presentation switchers are vital tools in modern conference AV systems, designed to manage multiple input sources like computers, cameras, and other devices, routing them to one or more displays. They are commonly used in classrooms, conference rooms, and auditoriums, where seamless transitions between sources are essential for smooth, professional presentations. BZBGEAR presentation switchers stand out with features like software control for advanced configuration, wireless connectivity via Airplay and Miracast, auto-scaling for compatibility with legacy devices, and audio de-embedding for superior sound integration.

When selecting a presentation switcher, key features to consider include true HDMI support for high-quality video and audio, scaling to adjust input resolutions, and auto-switching for effortless operation. Options like multi-format support and 4K resolution compatibility offer versatility for various content sources and high-resolution displays.

Overall, presentation switchers enhance professionalism, flexibility, and collaboration, making them indispensable in dynamic AV environments.

BG-CONNEXIO

4K UHD WIRELESS BYOD CONFERENCE ROOM PRESENTATION COLLABORATION SOLUTION WITH AIRPLAY/ MIRACAST/CHROMECAST SUPPORT

BG-Connexio is a revolutionary wireless conference product that was specifically designed to meet the needs of today's hybrid workforce. It allows for seamless local presentations as well as collaborations with remote participants by connecting the room camera, microphone, speakers, and display with the attendees' own laptops wirelessly.

This powerful device supports wireless connectivity standards such as Miracast, Chromecast and Airplay, so you can connect to any device you prefer, whether it's a laptop, smartphone or tablet. The device also supports multiple simultaneous connections, so multiple participants can share their screens in the same meeting.

With BG-Connexio, you can control the room A/V system from your personal device, allowing you to adjust the volume, change the source, or even control the camera and microphone as needed.

BG-PS21-4K

2-PORT 4K UHD KVM PRESENTATION SWITCHER WITH HDMI/USB-C INPUTS AND HDMI OUTPUT

Built for flexible digital presentations, the BG-PS21-4K is a KVM switcher that enables two devices to be connected to the same display at output resolutions of up to 4K@60Hz. Thanks to its USB-A ports, users can control two connected devices with one mouse and keyboard. These USB peripherals can be shared between the HDMI/Host connections and the USB-C connection. The device will also automatically switch inputs when a signal is detected via HDMI.

With the ability to de-embed audio and support for audio formats such as LPCM 7.1, Dolby Digital® Plus, and DTS-HD® Master Audio™, you'll be able to capture crystal clear audio from your presentations.

Using the two USB 3.0/2.0 type-A ports, peripherals like mice and keyboards can be connected to control active content. The unit itself can be controlled via front panel buttons of the RS-232 interface. A 4-pin DIP switch is also provided for EDID settings. A balanced audio output is also included for audio de-embedding.

BG-UHM

3-PORT 4K UHD USB/HDMI CAMERA VIDEO SELECTOR AND MIXER

The BG-UHM USB/HDMI Video Selector and Mixer is a versatile and feature-rich solution designed to meet the demands of modern video production environments. Engineered for seamless integration, this compact device allows users to connect, switch, and mix multiple video sources effortlessly, offering unparalleled flexibility and functionality in a single unit.

The BG-UHM supports up to three video sources, including USB 3.0, USB 2.0, and HDMI inputs, enabling users to integrate diverse devices like webcams, laptops, and document cameras. With its customizable video mixing options, the BG-UHM delivers professional-quality results, allowing users to create unique layouts such as Picture-in-Picture (PiP), side-by-side, and big and small overlays. These layouts can be easily configured through a user-friendly web interface, making the device suitable for both novice and experienced users.

Features

MULTI-SOURCE CONNECTIVITY

1x USB 3.0, 1x USB 2.0, 1x HDMI 1.4

CUSTOMIZABLE VIDEO MIXING

Blend up to two input sources into a single output with layouts such as Picture-in-Picture (PiP), side-by-side, and overlay options. Layouts are fully configurable via the intuitive web interface

OUTPUT FLEXIBILITY

1x HDMI 2.0 output, 1x USB-C (UVC/UAC) output

AUDIO MANAGEMENT

Integrated audio mixing with inputs via HDMI, USB, and analog jacks. Mute video/audio streams as needed for precise control over live broadcasts

ADVANCED CONTROL OPTIONS

Manage the device via LAN, RS-232, or the web-based GUI for ultimate flexibility.

PoE SUPPORT

Power the device via PoE (802.3af), reducing cable clutter and simplifying installation

BG-PSC6X2-4K

6X2 4K UHD CONFERENCE ROOM PRESENTATION SWITCHER SCALER WITH HDMI/VGA/USB-C/DP & AUDIO

The BG-PSC6X2-4K multi-function 4K@60Hz presentation switcher provides users with a variety of inputs, allowing numerous devices to be displayed on a 4K HDMI display. The powerful integrated scaler allows resolutions as low as 640 x 480 to be displayed in multiple aspect ratios at resolutions up to 4096x2160@60Hz 4:4:4.

Featuring audio embedding, de-embedding, and a MIC level input, the BG-PSC6X2-4K is an effective solution for use in auditoriums, classrooms, and conference rooms.

The BG-PSC6X2-4K is equipped with six inputs including three 18 Gbps HDMI 2.0, one DisplayPort, one USB-C, and one VGA. The VGA input is paired with a 3.5mm audio input. A three-way selectable input with phantom power allows users to connect microphones or line input sources for audio embedding. Two mirrored HDMI outputs provide connections for dual displays. Equipped with one digital coax and one RCA line output, the BG-PSC6X2-4K provides audio de-embedding for connection to external audio systems.

BG-PSC7X2

7X2 4K UHD PRESENTATION SWITCHER SCALER WITH HDMI/ VGA/COMPONENT/COMPOSITE VIDEO & AUDIO

The BG-PSC7X2 multi-function presentation switcher provides users with a variety of inputs, allowing numerous devices to be displayed on a single HDMI display. Supporting input signals up to 4K@30Hz, this unit is also equipped with an integrated scaler which allows resolutions as low as 640 x 480 to be scaled up to 1920x1080@60Hz.

The powerful dual-switcher mode allows the BG-PSC7X2 to simultaneously function as a 4x1 4K HDMI switcher and a 7x1 1080P multi-format switcher. Featuring audio embedding, de-embedding, and supporting variety of input connections, this unit is an effective solution for use in auditoriums, classrooms, and conference rooms.

The BG-PSC7X2 is equipped with seven inputs including four HDMI, one VGA, one component (YPbPr), and one composite A/V. The VGA input is paired with a 3.5mm audio input. Two mirrored HDMI outputs provide connections for dual displays. Equipped with one digital coax and one RCA line output, the BG-PSC7X2 provides audio de-embedding for connection to external audio systems. The digital bypass circuit allows 4K@30Hz 4:4:4 sources to be displayed.

Features

LEGACY INPUT DEVICE SUPPORT

4x HDMI, 1x VGA with audio, 1xYPbPr (Component) and 1x Composite RCA

MULTI-DISPLAY SUPPORT

2x HDMI mirrored outputs

MULTIPLE CONTROL OPTIONS

Front panel, IR, RS-232, TCP/IP

AUDIO SUPPORT

Embed via 3.5mm line in or de-embed audio signals Coaxial S/PDIF or 3.5mm

CRYSTAL CLEAR IMAGES

Supports image resolutions up to 4K2K@30Hz 4:4:4

LCD DISPLAY

LCD to easily view system status at a glance

BG-PSC11X2-HDBT

11X2 4K UHD PRESENTATION SCALER SWITCHER W/VGA/
HDMI/YPBPR/CV/HDBASET INPUT AND OUTPUT

The BG-PSC11X2-HDBT is an eleven input multi-format video presentation switcher with two HDMI outputs. This versatile switcher supports resolutions up to 4K@30Hz and is designed for use in control centers, auditoriums, and other situations requiring both current and legacy devices to be connected to 4K displays.

With HDBaseT inputs and outputs, the BG-PSC11X2-HDBT can connect to distant sources and displays. The integrated scaler can take resolutions as low as 640x480 and convert them to 1920x1080@60Hz for compatibility with modern displays.

The BG-PSC11X2-HDBT has eleven video inputs, including four HDMI, one HDBaseT, four VGA, one component (YPbPr), and one composite AV. All inputs are paired with 3.5mm stereo audio inputs. Outputs include one HDMI, one HDBaseT, one digital coax, and one 3.5mm stereo audio.

Features

4K SUPPORT

Transmit resolutions up to 4K@30Hz

HDBASET

1x input, 1x output, transmits up to 330ft/100m over Cat6

11 INPUTS

4x HDMI, 4x VGA, 1x Component, 1x Composite, 1x HDBaseT

MULTIPLE CONTROL OPTIONS

Controllable via front panel, IR, TCP/IP or RS-232

AUDIO EMBEDDING/ EXTRACTING

Output audio via analog or S/PDIF connections

SCALING

Able to scale from 640x480 to 1920x1080@60Hz

Video Switchers

KVM Switchers

BZBGear KVM Switchers

A BZBGear KVM switch (Keyboard, Video, Mouse switch) is a hardware device that enables users to control multiple computers using a single set of peripherals, such as a keyboard, mouse, and monitor. This tool is particularly useful in environments where space and efficiency are important, as it allows a user to multitask on several computers from one workstation.

These switchers also support high resolutions, including Full HD and up to 4K UHD, ensuring clear and fast video output. Additionally, the ability to perform USB hot-plugging makes it easy to add or remove devices without turning off the system. Many BZBGear KVM switches are also HDMI 2.0a and HDCP 2.2 compliant, making them compatible with high-definition video sources. Overall, KVM switches provide a practical solution for managing multiple computers in professional and home office settings, improving productivity and maximizing workspace efficiency.

BG-UHD-KVM41MV

4K UHD 4X1 SEAMLESS VIDEO & USB 3.0 KVM SWITCHER WITH MULTIVIEW/HOTKEY SWITCHING/IR CONTROL

The BG-UHD-KVM41MV is a powerful 4x1 seamless UHD KVM switcher designed to simplify multi-computer workflows while delivering uncompromised 4K60 video performance. It allows up to four HDMI source devices to be displayed and controlled on a single monitor, supporting both full-screen switching and advanced multiview layouts with smooth, glitch-free transitions.

Combining professional-grade video switching with full USB 3.0 KVM functionality, the BG-UHD-KVM41MV enables users to control multiple computers using one keyboard, mouse, and shared USB peripherals. With flexible control options, audio de-embedding, and broad OS compatibility, it is ideal for control rooms, broadcast environments, post-production, IT workstations, and collaborative professional AV applications.

Video Switchers

Production Switchers

BZBGEAR PRODUCTION SWITCHERS

The BG-QuadFusion series includes two powerful video switchers, the BG-QuadFusion-4K and BG-QuadFusion-JR, designed for professional live streaming, broadcasting, and content creation. Both models offer advanced video and audio processing, featuring multiple video inputs, seamless transitions, and real-time streaming capabilities.

The BG-QuadFusion-4K supports 4K UHD resolution with multiple HDMI and DisplayPort inputs, providing high-quality video mixing, chroma and luma keying, PIP functionality, and recording features, making it suitable for large-scale events and studio productions. Meanwhile, the BG-QuadFusion-JR offers a more compact, budget-friendly solution with 1080p video mixing, ideal for smaller setups or mobile applications, while still delivering robust features like multi-format video input, keying effects, and USB streaming.

Both models are built with durable metal alloy casing, ensuring reliability in demanding environments. With intuitive controls, USB streaming, and versatile audio and video management, the BG-QuadFusion series provides an all-in-one solution for users looking to enhance their live production workflows, whether in large-scale broadcasts or smaller, portable setups.

BG-QUADFUSION-JR

4-CHANNEL 1080P FHD LIVE STREAMING HDMI/DP SWITCHER MIXER WITH PIP AND USB 3.0 CAPTURE CARD

Introducing the BG-QuadFusion-JR: Your Ultimate 1080p FHD Video Switcher Solution. Seamlessly integrating 3 HDMI inputs and 1 dual HDMI/DP input, this cutting-edge switcher redefines video content management for broadcast and TV. Elevate production quality, streamline setup, and embrace the future of visual communication with features including effortless source transition, intuitive control, support for 1080P@60Hz, USB 3.0 capture, SD card slot, versatile effects, durable mobility, immersive audio, and professional-grade quality.

The BG-QuadFusion-Jr introduces a new level of versatility to your AV setup. By incorporating 3 dedicated HDMI inputs and 1 dual HDMI/DP port, managing multiple video sources becomes effortless and tangle-free. Transition seamlessly between various sources, ensuring smooth content flow without interruptions.

From 4 HDMI and 1 DP input to the multiview output and PGM output, every facet of your visual narrative receives a boost. With provision for LUMA key, CHROMA key, and color bar output, you're armed to narrate your story in the most impactful manner possible.

BG-QUADFUSION-4K

4-CHANNEL 4K UHD LIVE STREAMING HDMI/DP SWITCHER MIXER WITH PIP AND USB 3.0 CAPTURE CARD

Introducing the BG-QuadFusion-4K: A Feature Packed 4K UHD 4-CH Video Production Switcher. The BG-QuadFusion-4K is a versatile video production switcher designed for professional broadcast and TV stations. This switcher offers comprehensive control options, including keyboard-based special effects and transitions, intuitive menu display functions, and a camera joystick for precise camera control. It supports up to 4-CH HDMI/DP (DisplayPort) inputs 4K60 signals, making it ideal for a wide range of live broadcasting applications, including sports events, concerts, and studio recordings.

The BG-QuadFusion-4K is built for both studio and on-location use, making it suitable for live performances, course recordings, and studio guidance. Its advanced functions include multi-format video input, audio embedding, audio mixing, an SD card slot, USB 3.0 streaming, keying effects, RS422 control, and more, all accessible through user-friendly operation.

The switcher allows control of up to 4 cameras and is particularly well-suited for large-scale events like sports broadcasts and concerts. Its robust construction, featuring metal aluminum alloy, ensures durability, while its ultra-thin design facilitates transportation and maintenance.

Video Switchers

HDMI/USB Mixers

BZBGEAR HDMI/USB MIXER

A BZBGEAR USB/HDMI Video Selector and Mixer is a compact, versatile solution for modern video production, allowing users to connect, switch, and mix up to three video sources, including USB 3.0, USB 2.0, and HDMI. It supports a variety of devices like webcams, laptops, and document cameras.

Key features include customizable video mixing for layouts like Picture-in-Picture (PiP), side-by-side, and overlays, all easily configured via a user-friendly web interface. The device offers flexible output options, including HDMI 2.0 and USB-C (UVC/UAC). It also includes integrated audio mixing and control over video/audio streams, with advanced management options through LAN, RS-232, or the web interface. Additionally, the BG-UHM supports Power over Ethernet (PoE) for simplified installation by reducing cable clutter.

Features

MULTI-SOURCE CONNECTIVITY

1x USB 3.0, 1x USB 2.0, 1x HDMI 1.4

CUSTOMIZABLE VIDEO MIXING

Blend up to two input sources into a single output with layouts such as Picture-in-Picture (PiP), side-by-side, and overlay options. Layouts are fully configurable via the intuitive web interface

OUTPUT FLEXIBILITY

1x HDMI 2.0 output, 1x USB-C (UVC/UAC) output

AUDIO MANAGEMENT

Integrated audio mixing with inputs via HDMI, USB, and analog jacks. Mute video/audio streams as needed for precise control over live broadcasts

ADVANCED CONTROL OPTIONS

Manage the device via LAN, RS-232, or the web-based GUI for ultimate flexibility.

PoE SUPPORT

Power the device via PoE (802.3af), reducing cable clutter and simplifying installation

BG-UHD-QVP-4X2

**4X2 4K UHD SEAMLESS SWITCHER/SCALER/MULTIVIEWER
WITH AUDIO DE-EMBEDDING AND BUILT-IN USB CAPTURE
CARD**

The BG-UHD-QVP-4X2 is a powerful video processor that provides users with flexible and cost-effective solutions for routing ultra-high definition video from any of the four UHD HDMI sources to two remote displays simultaneously. With 4K2K@60 4:4:4 video resolution, this video processor delivers top-notch video quality with rich, vivid colors and crisp images.

One of the most impressive features of the BG-UHD-QVP-4X2 is its built-in USB 3.0 capture & auto scaling down features that allow users to record video or broadcast up to 1080p video & 2ch audio through real-time software such as Skype or Zoom.

With adjustable size & position of the image, the BG-UHD-QVP-4X2 provides users with complete control over how their content is displayed. Additionally, the processor supports PIP, PBP, POP, full screen & quad-view display, allowing users to create dynamic layouts and presentations that capture their audience's attention. The BG-UHD-QVP-4X2 also supports titles, borders, and colored backgrounds, which can be used to enhance the presentation's visual appeal.

Wall Processors & Switchers

BZBGEAR MODULAR VIDEO WALL PROCESSORS & SWITCHERS

BZBGEAR Modular Video Walls and Switchers deliver exceptional flexibility for pro-AV environments. Built on a modular card architecture, these systems support pluggable HDMI, SDI, HDBaseT, fiber, and other I/O modules – allowing you to tailor each installation to your exact requirements. Their scalable design can range from 8×8 to 36×36 and beyond, making them ideal for everything from corporate boardrooms to large-scale command centers.

Experience seamless video switching, advanced video wall processing, and integrated audio support, all managed via front-panel controls, IR, RS-232, software, or an intuitive Web GUI. This category is engineered to streamline complex routing while delivering professional-grade performance in any environment.

BG-MC-SERIES

8X8/16X16/36X36/80X80 MODULAR AND FULLY CONFIGURABLE SEAMLESS 4K60 MATRIX SWITCHER WITH VIDEO WALL AND INCLUDED CONTROL SYSTEM

The BG-MC-SERIES Modular Seamless Switching Matrix is a professional-grade AV solution engineered for demanding signal management environments. Supporting up to 8-80 inputs and outputs, it delivers powerful, real-time switching, distribution, and control with zero latency or signal degradation. Designed for mission-critical installations, this all-in-one system integrates a high-performance video wall processor, seamless switching technology, and intelligent control capabilities. Whether deployed in control rooms, broadcasting studios, corporate AV systems, or large-scale video walls, the BG-MC-SERIES ensures pristine 4K60 (4:4:4) image quality and uncompromised reliability across every connected display.

With its modular, pluggable architecture, the BG-MC-SERIES provides unmatched scalability and flexibility. Input and output modules are available for HDMI, DVI-U, VGA, SDI, HDBaseT, and fiber interfaces—each offering four channels per card.

Video Wall Processors

CUTTING EDGE VIDEO WALL PROCESSORS

BZBGEAR Video wall processors allow users to create high-quality large-scale video wall arrangements for a variety of applications. Large-format displays can be expensive and ineffective in the long run. Combining several smaller displays with a video wall processor can create an even larger display for less! Additionally, combining multiple smaller displays will allow the user to maintain image quality due to the greater pixel density per unit.

Managing and monitoring BZBGEAR video wall processors is made easy with our dedicated software which gives users instant access to important settings like display grouping, layouts, and bezel correction. This software is free to download and free to use. Furthermore, you can manage most BZBGEAR video wall processors using basic control methods including front panel controls, IR remote control, RS-232, or IP control.

Implement a BZBGEAR video wall processor today and start creating attention-grabbing displays! Contact a BZBGEAR representative to get started.

BG-UHD-VWP-1X4

4K UHD HDMI/DISPLAYPORT VIDEO WALL PROCESSOR WITH SCALER/AUDIO FOR UP TO 4 TVS

The BG-UHD-VWP-1X4 4K 1x4 Video Wall Processor is a high-quality video processor that is perfect for multiple flat panel displays or projectors. It is designed to support HDMI/DisplayPort signals up to 4K2K@60Hz 4:4:4, providing you with crisp, clear images that are ideal for digital signage, broadcasting, education, and surveillance systems. The embedded scaler technology ensures that video signals are converted to match the native resolution of monitors, flat panel displays, and projectors, while user-selectable output settings up to WUXGA (1920x1200) allow for customized display options.

BG-UHD-VWP-1X4 unit is extremely versatile and can be controlled via USB, push buttons, Ethernet, webGUI, and IR remote control. With the image parameters saved in flash memory, you can easily recall your preferred settings without the hassle of reconfiguring the unit every time. It is HDCP 2.2 compliant, ensuring that it is compatible with the latest content protection standards.

BG-UHD-VWP19

4K UHD ADVANCED MULTI INPUT VIDEO WALL PROCESSOR WITH SEAMLESS SWITCHING/SCALING/EDID MANAGEMENT FOR UP TO 9 TVs

The BG-UHD-VWP19 is a professional-grade multi-format video wall processor engineered for maximum versatility and performance in large-scale display environments. Designed to handle a broad range of input sources - including HDMI, DisplayPort 1.4, USB-C, VGA, YPbPr, and CVBS - it supports ultra-high-definition video up to 4K2K@60Hz (YUV 4:4:4). With nine HDMI outputs for display configurations and an additional HDMI loop-out, it enables both direct source monitoring and dynamic multi-screen layouts for digital signage, broadcast, and control room applications.

Built for flexibility, this processor allows users to resize, rotate, and position content across multiple displays to form complex video wall arrangements such as 3x3 layouts in full 4K resolution. With onboard memory for storing display presets and multiple control options - including front-panel buttons, IR remote, and PC software - the BG-UHD-VWP19 provides an intuitive and powerful platform for real-time video wall management in professional AV installations.

Operate via front-panel keys, IR remote, or software for convenient configuration and management

BG-UHD-VW24

4K UHD HDMI VIDEO WALL PROCESSOR/SWITCHER WITH IP/AUDIO/RS-232 FOR UP TO 4 TVs

Introducing the BG-UHD-VW24 HDMI 2.0 video wall controller from BZBGEAR, an innovative solution for all your video wall processing needs. This powerful controller features 2 HDMI inputs and 2 HDMI loop outs, as well as 4 HDMI scaling outputs, providing seamless and efficient video processing.

With support for resolutions up to 3840x2160@60Hz, this HDMI 2.0 device ensures stunning video quality and optimal viewing experience. The BG-UHD-VW24 also supports HDCP 2.2, ensuring that it is fully compatible with the latest content protection standards.

One of the unique features of the BG-UHD-VW24 is its ability to compensate for bezels in two modes, allowing for optimal display of content across multiple displays. Ability to control resolutions of the output displays and configure the brightness, contrast, saturation, and sharpness of each output further enhancing the viewing experience. Additionally, the controller provides the flexibility of 180° display rotation.

Supports resolution up to 4K@60Hz 4:4:4

BG-4K-VP1616

16X16 4K UHD SEAMLESS HDMI MATRIX SWITCHER/VIDEO WALL PROCESSOR/MULTIVIEWER WITH SCALER/IR/AUDIO/IP/RS-232

The BG-4K-VP1616 supports sixteen HDMI inputs that can be independently routed to HDMI Outputs. This unit can create video walls, act as a multi-viewer and perform matrix functions! The BG-4K-VP1616 supports video wall configurations of up to 7 different modes with each monitor. It can also display sixteen pictures on the same screen and has multiple split display modes.

With max resolutions up to 4K@60Hz 4:4:4, the BG-4K-VP1616 is capable of producing high-quality imagery with pristine detailing and rich color. All HDMI ports on this unit are HDCP 2.2 compliant. This device also supports analog audio extraction, and audio channels can be switched independently.

With the included IR receiver, the unit can be controlled using the provided remote even when placed out of sight, ensuring a neat installation. Additionally, users have the option to utilize the BG-SWITCH-CONTROL app, a proprietary matrix switcher control and management application available for Windows, iOS, Mac, and Android platforms. This software empowers you to effortlessly route sources, manage displays, configure image settings, adjust network settings, and more.

Features

16X16 MATRIXING

16x HDMI Inputs which can be independently routed to 16x HDMI Outputs

VIDEO WALL

Supports multiple video walls at the same time

MULTIVIEW CAPABILITIES

Up to 16 sources can be displayed on each output in different layouts

HDCP COMPLIANT

HDCP 2.2 compliancy ensures copyright protection

CONTROL OPTIONS

Control via panel button, Remote Control, RS232 Control, TCP/IP Control

4K@60Hz

Supports resolution up to 4K@60Hz 4:4:4

BG-MC-SERIES

8X8/16X16/36X36/80X80 MODULAR AND FULLY CONFIGURABLE SEAMLESS 4K60 MATRIX SWITCHER WITH VIDEO WALL AND INCLUDED CONTROL SYSTEM

The BG-MC-SERIES Modular Seamless Switching Matrix is a professional-grade AV solution engineered for demanding signal management environments. Supporting up to 8-80 inputs and outputs, it delivers powerful, real-time switching, distribution, and control with zero latency or signal degradation. Designed for mission-critical installations, this all-in-one system integrates a high-performance video wall processor, seamless switching technology, and intelligent control capabilities. Whether deployed in control rooms, broadcasting studios, corporate AV systems, or large-scale video walls, the BG-MC-SERIES ensures pristine 4K60 (4:4:4) image quality and uncompromised reliability across every connected display.

With its modular, pluggable architecture, the BG-MC-SERIES provides unmatched scalability and flexibility. Input and output modules are available for HDMI, DVI-U, VGA, SDI, HDBaseT, and fiber interfaces—each offering four channels per card.

Features

SEAMLESS 4K SWITCHING

Zero-latency transitions between sources with no tearing or black screens

MODULAR CARD ARCHITECTURE

Pluggable input/output modules for HDMI, SDI, HDBaseT, fiber, and more

ULTRA-LOW LATENCY GEN-LOCK

Synchronizes outputs for precise video wall splicing

SCALABLE DESIGN

Expandable from 8x8 up to 80x80 configurations for flexible installations

COMPREHENSIVE CONTROL OPTIONS

Operate via front panel, RS-232, LAN, IR, Web GUI, or PC software

INTEGRATED VIDEO WALL PROCESSOR

Supports advanced multi-screen layouts with perfect synchronization

Videobars

ALL-IN-ONE AUDIO/VIDEO SOLUTION

Videobars are a must have tool for every corporate and office setting. A videobar is an all-in-one audio/video solution that significantly improves videoconferencing. These devices integrate audio and video into a single unit, while providing the same level of functionality as single-purpose built equipment.

BZBGEAR videobars come with special features such as auto-framing, automatic privacy covers, multiple embedded microphones, and auto-tracking. You can also expect resolutions up to 4K and high quality audio output.

AUTO-FRAMING

MICROPHONES

4K RESOLUTION

BG-CYCLOPS-4K

INTELLIGENT 4K UHD ALL-IN-ONE AUTO TRACKING VIDEO BAR WITH HDMI/USB-C AND 20W SPEAKERS/6-MEMS MICROPHONES

The BG-Cyclops-4K's all-in-one design consolidates several devices into one streamlined, user-oriented video conferencing solution.

With a powerful 4K UHD camera and high-end 0.8M CMOS sensor, the BG-Cyclops-4K captures pristine lifelike images. The advanced auto-tracking functionality is bolstered by facial recognition software. The distortion-less 120° wide angle lens automatically tailors the image size based on the number of participants in the frame, eliminating the need to manually adjust the camera before each meeting.

The BG-Cyclops-4K's built-in dual 10W studio speaker ensures every participant can hear and be heard clearly. The sophisticated 6 MEMS microphone array features voice localization and tracking that detects the presenter's position in real time and locks in for a focused shot, removing any confusion as to who is currently speaking. Complete with a privacy cover, the BG-Cyclops-4K automatically shields the lens when no output device or software is detected for and security and comfort.

Features

CRYSTAL CLEAR IMAGES
Stunning image quality at 4K2K

AUTOMATIC PRIVACY COVER
Camera lens cover automatically closes when there is no output stream detected

WIDE ANGLE LENS
120° wide angle lens ensures every participant is captured in frame

6 MICROPHONES
Multiple microphones enable the current speaker to be tracked in real time up to 6 meters

AUTO FRAMING
Face detection algorithm automatically detects participants to provide the optimal shot

COMPATIBLE
Works with Windows, Mac OS, and major conferencing software such as Zoom, Skype, etc.

Available in Black and White

BG-CYCLOPS-PRO

4K UHD 12X PTZ ALL-IN-ONE SPEAKER TRACKING/AUTO-FRAMING VIDEO BAR WITH HDMI/USB/WI-FI AND PRO-GRADE SPEAKER/MICROPHONE

The BG-CYCLOPS-PRO is a cutting-edge 4K UHD camera designed for seamless video conferencing and collaboration. Its dual-lens system combines a 120° ultra-wide panoramic lens with a 12x optical zoom lens, delivering crystal-clear visuals and exceptional versatility. This all-in-one device features integrated AI capabilities like auto-framing, speaker tracking, and Smart Gallery, along with a beamforming microphone and professional-grade speaker for outstanding audio quality. With flexible mounting options, built-in Wi-Fi, and easy USB connectivity, the BG-CYCLOPS-PRO is the ultimate solution for modern BYOM and BYOD workflows.

Whether on a tabletop, wall-mounted, or attached to a display, the BG-CYCLOPS-PRO delivers outstanding performance, making it the ultimate solution for professional video communication and collaboration.

Features

DUAL-LENS SYSTEM

Combines a 120° ultra-wide-angle lens for panoramic views with a 12x optical zoom lens for detailed close-ups, both supporting 4K UHD resolution.

ADVANCED AI CAPABILITIES

Features auto-framing, speaker tracking, and Smart Gallery for intelligent participant focus and equitable remote collaboration.

INTEGRATED AUDIO SYSTEM

Includes a 6-element beamforming microphone array with Audio 3A algorithms (AEC, AGC, ANS) for clear communication and a professional-grade full-range speaker for immersive sound.

ALL-IN-ONE DESIGN

Combines a 4K close-up camera, panoramic camera, microphone, and speaker in a compact, sleek design for maximum convenience.

MODERN CONNECTIVITY

Built-in Wi-Fi, USB 3.0, HDMI, and RJ45 ports ensure seamless integration into existing setups, along with support for wireless screen projection.

FLEXIBLE INSTALLATION

Offers versatile mounting options for table, wall, or display attachment, making it ideal for various room sizes and configurations.

BG-CYCLOPS-EXT

EXTENSION MICROPHONE FOR BG-CYCLOPS-4K VIDEO BAR

The BG-CYCLOPS Expansion Microphones seamlessly integrate advanced control features, elegant design, and dependable performance, elevating the audio capabilities of the BG-CYCLOPS. This enhancement offers users a versatile and professional audio solution. Featuring a 3-meter extension range and an intuitive interface, these units are perfect for individuals seeking to expand the audio pickup range of their BG-CYCLOPS video bar in large conference spaces and meeting rooms.

The BG-CYCLOPS Expansion Microphones are equipped with intuitive control buttons, and users can refer to the button description for detailed information on their functionalities. Control is facilitated through transparent infrared transmission, allowing seamless command execution.

For connectivity, the BG-CYCLOPS Expansion Microphones feature an RJ45 output jack for a secure connection, supporting a 10-meter transmission range. Additionally, the cascading jack, also an RJ45 port, allows the connection of up to 2 units of expansion microphones for extended coverage.

The microphones utilize Electret Microphone technology, providing a reliable and high-quality audio experience. The pickup range extends up to 10 feet (3 meters), capturing clear audio within its radius. The frequency response spans from 120 Hz to 16 kHz, ensuring a broad spectrum of sound is accurately reproduced.

BZBGear has built an extensive network of Authorized Partners dedicated to helping you select, integrate, and support our industry-leading products. To ensure you receive professional service and genuine, factory-certified products, BZBGear collaborates with a carefully chosen group of Authorized Resellers and Distributors.

Our products are frequently used in advanced AV systems that often require detailed configuration, professional installation, and expertise in control system integration. We highly recommend contacting one of our Authorized Partners for your purchase and considering an experienced AV integration company for installation and setup to ensure optimal performance.
