Multiviewers

BZBGEAR

Multiviewers

BZBGEAR multiviewers are advanced video distribution devices that allow users to view multiple video sources on a single screen, providing a comprehensive visual solution for various professional applications. Whether you are monitoring multiple cameras in a broadcast control room, managing live event feeds, or overseeing security footage, BZBGEAR multiviewers ensure exceptional image clarity and flexible control options.

With support for resolutions up to 4K@60Hz and advanced features like audio de-embedding, auto-scaling, and seamless layout customization, these multiviewers deliver reliable performance and versatility. What sets BZBGEAR multiviewers apart is their user-friendly design and broad compatibility. These devices support various video sources, including HDMI inputs, and offer multiple control options such as IR remote, RS-232, web GUI, and front panel buttons, making them easy to integrate into any setup.

BG-UHM

4K UHD USB/HDMI VIDEO SELECTOR AND MIXER

The BG-UHM USB/HDMI Video Selector and Mixer is a versatile and feature-rich solution designed to meet the demands of modern video production environments. Engineered for seamless integration, this compact device allows users to connect, switch, and mix multiple video sources effortlessly, offering unparalleled flexibility and functionality in a single unit.

The BG-UHM supports up to three video sources, including USB 3.0, USB 2.0, and HDMI inputs, enabling users to integrate diverse devices like webcams, laptops, and document cameras.

MULTI-SOURCE CONNECTIVITY
1x USB 3.0, 1x USB 2.0, 1x HDMI 1.4

CUSTOMIZABLE VIDEO MIXING
Blend up to two input sources into a single output with layouts such as Picture-in-Picture (PIP), side-by-side, and overlay options.

ADVANCED CONTROL OPTIONS
Manage the device via LAN, RS-232, or the web-based GUI for ultimate flexibility.
